CHAPTER A - ENACTING ORDINANCE FOR CODE

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF METHUEN:

A-1. This Ordinance, consisting of Chapter 1 to 25 each inclusive, shall be known as the Municipal Code of Methuen - 2000 and shall be treated and considered as a new and original comprehensive ordinance, which shall completely supersede the Municipal Code of Methuen - 1997 and all other general ordinances passed by the City Council, prior to said 1997 Code, except such as by reference thereto are expressly saved from repeal or continued in force and effect for any purpose.

A-2. Any additions or amendments to this Code, when passed in such form as to indicate the intention of the City Council to make the same a part hereof, shall be deemed to be incorporated in this Code so that a reference to the Municipal Code of Methuen shall be understood as including them.

A-3. The City Clerk shall keep two copies of this Code. These copies shall be printed, pasted, or otherwise mounted on paper sufficiently thick and tough to withstand heavy usage, and preserved by the City Clerk in a book or binder in loose-leaf form, or in such other form as the City Clerk may consider most expedient, so that all amendments thereto and all general ordinances hereafter passed may be inserted in their appropriate places in such volumes, and all sections of this Code or ordinances repealed from time to time may be extracted therefrom for the purpose of maintaining said two copies in such condition that they will show all general ordinances passed up to date at any time in such manner that ready reference may be had thereto.

In determining whether or not any ordinance hereafter passed, or any part thereof, shall be inserted in such volumes, and in determining the form, chapter, or section in which it shall be inserted, and in determining what shall be taken out, if any doubt arises the City Clerk shall be guided by the advice of the City Solicitor.

A-4. The City Council shall prepare and publish revised sheets of every loose-leaf page in need of revision by reason of amendment or repeal, when necessary.

The City Clerk shall distribute said revised loose-leaf sheets for such fee as the City Council shall direct.

A-5. No officer or employee of the City shall issue, mail, or distribute as a publication on the part of the City or any officer, department, bureau or branch of the City government, any book, pamphlet, leaflet, card, circular or other printed matter purporting to contain excerpts or

quotations from this Code or purporting to give the law on any subject to the public, either as a reprint or a statute, ordinance, or other legislative enactment, or as a digest, interpretation, resume, condensation or explanation, of the same, without submitting such book, pamphlet, leaflet, card, circular or other printed matter, or the portion of the same which purports to quote or give the law, to the City Solicitor for examination and approval as to form and as to whether or not the law is correctly stated therein. Provided however, that the Solicitor shall examine and approve the above within fourteen (14) days, vacations excepted.

A-6. All printed copies of this Code, except such as shall be reserved by the City Solicitor for use in the Department of Law, shall be deposited with the City Clerk. He shall deliver one copy thereof to the Mayor, one copy to each Councilor, one copy to the Nevins Memorial Library, and one copy to each head of a department of the City and to such other persons in each department as its head may designate. The City Clerk shall sell printed copies of said Code at such price as the City Council shall fix; provided, however, that in the case of such purchase by any public library, school library, or university library, a discount of twenty per cent of the regular purchase price shall be allowed.

The Mayor shall have power to reciprocate courtesies of other cities and towns, by presenting to each a copy of this Code, bound at the expense of the City in such manner as to him may seem suitable.

A-7. Each section number shall consist of two component parts separated by a dash, the figure before the dash referring to the chapter number and the figure after the dash referring to the position of the section within the chapter.

No officer or employee of the City shall issue any book or pamphlet containing any section or sections of this Code numbered differently than as numbered herein; and no section number shall be changed by such officer or employee in drafting any ordinance amending any section.

A-8. The decimal system shall be used for all additions to this Code. When a chapter is to be added, said new chapter shall be given a decimal character. When a section is added, it shall be given a decimal character. All such decimal characters shall run consecutively to the right of the respective decimal beginning with the figure "one."

Additions to the Code introduced in the City Council shall be submitted by the City Clerk to the City Solicitor for numbering before passage. In case any amendment is passed without having been properly numbered, the City Clerk, before the next regular meeting of the City Council, shall refer the same to the City Solicitor for appropriate action.

This section shall be liberally construed for the purpose of avoiding confusion in the numbering of sections of this Code, and shall not be deemed a limitation upon the powers of the City Council.

A-9. Reference to any section of this Code shall be understood to refer to and include the penalty section relating thereto, unless otherwise expressly provided.

A-10. In case of the amendment of any section of this Code containing provisions for which a penalty is provided in another section, the penalty so provided in such other section shall be held to relate to the section so amended, whether re-enacted in the amendatory ordinance or not, unless such penalty is specifically repealed therein.

A-11. Whenever in any section of this Code the doing of any act or the omission to do any act or duty is declared to be a breach thereof, and there shall be no fine or penalty declared for such breach, any person who shall be convicted of any such breach shall be fined not less than three dollars nor more than one hundred dollars for each such breach.

A-12. Whenever in this Code a minimum but no maximum fine or penalty is imposed, the court may in its discretion fine the offender any sum of money exceeding the minimum fine or penalty so fixed, but not exceeding the sum of one hundred dollars.

A-13. In all cases where the same offense is made punishable or is created by different clauses or sections of this Code, the City Solicitor may elect under which to proceed; but not more than one recovery shall be had against the same person for the same offense.

A-14. All general ordinances of the City passed prior to this recodification, except such as are herein expressly exempted from repeal and except such as are referred to as being still in force, are hereby repealed, subject to the saving clauses contained in Chapter One.

Section 3-90. Travel and Participation in Training Sessions Where Private Entities Provide Financing

A. General Provisions

This ordinance shall apply to all offices, departments, agencies, boards and commissions, as well as officers of the City of Methuen.

B. Purpose

The purpose of this ordinance is to provide all officers, agents, and employees of the City of Methuen with uniform rules and procedures governing travel and participation in training sessions where private entities provide financing.

C. General Principles

City of Methuen employees may accept and participate in travel and events for which private sources pay part or all of the costs. Such participation is subject to the following general conditions:

1) The employee must comply with this ordinance.

2) The Mayor must make a determination that the travel or event serves a legitimate public purpose and that the benefit to the City of the employee’s participation in the travel or event outweighs any special non-work related benefit to the employee or the private sponsor.

3) Family members and friends shall not accompany City employees on work-related matters.

D. Approval Procedure

1) Pre-Approval by Mayor

Any proposal to travel or attend an event for which a party other than the individual employee or the City will pay any portion of the expenses must be approved in advance by the Mayor and the Department Head, as applicable.

2) Contents of the Proposal

Any employee seeking travel where a part or all of the expenses are to be covered by a private party must submit a written proposal signed under the pains and penalties of perjury that provides, as a minimum, the following information:

- a) A statement of the purpose of travel or other event, including a discussion of the anticipated benefit of the travel or event to the City and anticipated work-related benefit to the employee.
- b) A full itinerary or schedule of the travel or event, including dates of travel, places of stay, and modes of transportation.
- c) A detailed estimate of the full cost of the trip, including a breakout of anticipated expenses, specifying which expenses will be borne by the City, all private parties, and the employee.
- d) A list of all persons accompanying the employee, including other City employees.
- e) A full description of the private party(ies) proposing to subsidize the travel or event, including name, address, telephone number, primary business activity, and the business or other relationship between the private party and the City. This description shall further include the specific name of the private individual authorizing payment for the subject travel.
- f) A description of all activities offered, including for example, accommodations, sports or athletic events, meals, or entertainment and a statement of the employee's intent to participate in such activities.
- g) A statement detailing arrangements to extend travel for personal purposes, if any.

Copies of all hotel brochures, meeting agendas, or similar publications that support or describe the purpose of the trip or the method of travel and accommodation shall be attached to the proposal.

3) Legitimate Public Purpose

The Department Head, as applicable, and the Mayor must determine that the proposed travel or event serves a legitimate public purpose which is not outweighed by any actual or apparent special benefit to the public employee or private sponsor.

Reasons for such determination may include that continuous training and education of public employees is necessary to improve efficiency and effectiveness of public services and that, in the particular instance, the private entity is making available opportunities for such training and education at no cost or at reduced cost to the public.

4) Approval/Disapproval or Modification by the Mayor

In considering a proposal for privately sponsored travel, the Mayor shall balance the legitimate public interest in allowing such travel against the appearance or existence of any conflict of interest. In making such determination, the Mayor shall consider:

- a) each of the items listed above;
- b) the accepted practices of the private sector regarding acceptance of such travel from other parties; and
- c) the extent to which such proposed expenses for travel, meals and entertainment or other activities may convey an appearance of special benefit for any employee.

Upon review, the Mayor may either approve the proposal as submitted, disapprove the proposal, or modify the proposal.

E. Post-Trip Audit/Certification

Within two weeks of the employee's return to work, he/she must submit a statement of reconciliation, signed under the pains and penalties of perjury, to the Mayor stating

whether or not the actual travel or event differed from the proposal in any significant way. This statement must include a description of any material changes.

F. Record Keeping

Each agency shall maintain a file of all travel proposals and subsequent reconciliation statements for employees of their department or agency, as approved in writing by the Department Head and the Mayor. The City Council of the City of Methuen may, at its option, require the submission to it of copies of the approved travel proposals and subsequent reconciliation statements.

Further, these records shall be considered public records, subject to review by the inhabitants of the City of Methuen.

G. Forms

The proposal submittals shall utilize a form in a similar format to that provided for under 801 CMR 7.00 et seq. from the Executive Office of Administration and Finance entitled "Authorization for Privately Subsidized Travel".

F. Incompatible Employment

No official or employee shall engage in private employment with, or render services for, any private person who has business transactions with any public body unless he/she shall first make full public disclosure of the nature and extent of such employment or services. CHAPTER 5 - FINANCIAL PROCEDURES

Section 5-1. Date of Annual Organization for Budget Purposes

For the purpose of the date of annual organization of the government which is referred to in Section 32 of Chapter 44 of the General Laws, the date of organization of the City government of Methuen shall be the first secular day of January of each year.

Section 5-2. Report of Estimated Expenses; Period Covered; Contents

Every officer having charge of, or jurisdiction over, any office, department or undertaking, requesting an appropriation shall, between November first and December first each year, furnish the Mayor and the City auditor, on forms provided by the City Auditor or officer having similar duties, and approved by the Bureau of Accounts in the Department of Corporations and Taxation, detailed estimates of the full amounts deemed necessary for the next fiscal year for the ordinary maintenance of the office, department or undertaking under his charge or jurisdiction and, for expenditures other than the ordinary maintenance with the amounts, if any, expended for similar purposes during the preceding fiscal year and an estimate of the amounts required to be expended for such purposes during the last eight months of the then current fiscal year, giving explanatory statements of any differences between the amount of any estimate for the next fiscal year and the amount expended or estimated to be required as aforesaid.

The information hereby required to be furnished shall set forth the number of permanent or temporary employees, or both, requested in each classification or rating in the next fiscal year and the number of permanent or temporary employees, or both, employed on October thirty first of the then fiscal year, or the nearest week-end thereto, except laborers and persons performing the duties of laborers, with the annual, monthly, weekly or hourly compensation of such employees and shall state whether such compensation is fixed by ordinance or otherwise and whether or not such employees are subject to Chapter thirty-one of the Massachusetts General Laws.

The foregoing shall not prevent the Mayor from so setting forth the number of permanent or temporary laborers and persons performing the duties of laborers, or both such permanent and temporary laborers and persons, with the annual, monthly, weekly or hourly compensation of such employees. The City Accountant, or officer having similar duties, shall forthwith at the close of each calendar year furnish the Mayor with a written report of the money received from estimated receipts applicable to the payment of expenditures of the first six months of the then current fiscal year, with an estimate of such receipts for the last six months of such year and for the next fiscal year.

Section 5-3. Submission to City Council; Procedure for Approval, Rejection or Alteration

Within one hundred seventy days after the annual organization of the City government, or such other time as may be specified by the General Court as per Chapter 44, Section 32, the Mayor shall submit to the City Council the annual budget which shall be a statement of the amounts recommended by him for proposed expenditures of the City for the next fiscal year. In addition, included with the annual budget figure shall be a summary of all expenditures, appropriations and tax rates for the five years preceding the budget submission. The annual budget shall be classified and designated so as to show separately with respect to each officer, department or undertaking for which an appropriation is recommended:

1. Ordinary maintenance, which shall also include debt and interest charges matured and maturing during the next fiscal year and shall be subdivided as follows:
 - a) Salaries and wages of officers, officials and employees other than laborers or persons performing the duties of laborer; and
 - b) Ordinary maintenance not included under (a).
2. Proposed expenditures for other than ordinary maintenance, including additional equipment, the estimated cost of which exceeds one thousand dollars.

The foregoing shall not prevent the Mayor, with the approval of the Council, from adopting additional classifications and designations, nor shall this in any way be interpreted to rescind any previously adopted classification or designations.

The full City Council may, by majority vote, make appropriations for the purposes recommended and may reduce or reject any amount recommended in the annual budget, but, except on recommendations of the Mayor, shall not increase any amount in or the total of the annual budget, nor add thereto any amount for a purpose not included therein, except as provided in Section 5-2 of the Charter. Except as otherwise permitted by law, all amounts appropriated by the City Council, as provided in this section, shall be for purposes specified. In setting up an appropriation order or orders based on the annual budget, the Council shall use, so far as possible, the same classifications required for the annual budget. If the Council fails to take action with respect to any amount recommended in the annual budget, either by approving, reducing or rejecting the same within forty-five days after the receipt of the budget, such amount shall, without any action by the Council, become part of the appropriations for the year and be available for the purposes specified.

If, upon the expiration of one hundred and seventy days after the annual organization of the City government, the Mayor shall not have submitted to the City Council the annual budget for said year, the City Council shall, within thirty days, upon its own initiative, prepare the annual budget and such preparation shall be subject to the same requirements as the Mayor's annual budget, so far as apt.

Within fifteen days after such preparation of the annual budget, the City Council shall proceed to act by voting thereon and all amounts so voted shall thereupon be valid appropriations for the purposes stated therein to the same extent as though based upon a Mayor's annual budget, but subject, however, to such requirements, if any, as may be imposed by law.

If the Council fails to take action with respect to any amount recommend-ed in the budget, either by approving, reducing or rejecting the same, within fifteen days after such preparation, such amount shall, without further action by the Council, become a part of the appropriations for the year and be available for the purposes specified.

Nothing in this section shall prevent the City Council, acting upon the written recommendation of the Mayor, from voting appropriations not in excess of the amount so recommended, either prior or subsequent to the passage of the annual budget.

Notwithstanding any provisions of this section to the contrary, the Mayor may submit to the City Council a continuing appropriation budget for said City on a month-by-month basis for a period not exceeding three (3) months if said City has not approved an operating budget for the fiscal year because of circumstances beyond its control.

Subsequent to the submission to the Council of the budget, and, prior to action on such, the Council shall publish in one or more newspapers of general circulation in the City a general summary of the proposed budget as submitted by the Mayor by a notice stating (1) the time and places where copies of the proposed budget are available for inspection by the public, and (2) the date, time and place, not less than two weeks after such publication, when a public hearing on said proposed budget will be held by the Council.

At the time and place so advertised, or, at any time or place to which such public hearing may from time to time be adjourned, the City Council shall hold a public hearing on the annual budget as submitted by the Mayor, at which all interested persons shall be given an opportunity to be heard for or against the proposed expenditures or any item thereof.

Section 5-4. Power of Council to Add to Appropriation; Conditions; Limitations

In case of the failure of the Mayor to transmit to the City Council a written recommendation for an appropriation for any purpose not included in the annual budget, which is

deemed necessary by the Council after having been so requested by vote thereof, said Council, after the expiration of seven days from such vote, upon its own initiative, may make such appropriation by a vote of at least two-thirds of its members and shall in all cases clearly specify the amount to be expended for each particular purpose.

Section 5-5. Salary Provisions in Budget; Requirements and Limitations

The annual budget shall include sums sufficient to pay the salaries of officers and employees fixed by law or by ordinance. Notwithstanding any contrary provision of any City Charter, no ordinance providing for an increase in the salaries or wages of municipal officers or employees shall be enacted except by a two-thirds vote of the full City Council, nor unless it is to be operative for more than three months during the calendar year in which it is passed. No new position shall be created or increase in rate made by ordinance, vote or appointment during the financial year subsequent to the submission of the annual budget unless provision therefore has been made by means of a supplemental appropriation. No ordinance, vote or appointment creating a new position in any year in which a municipal election is held shall be valid and effective unless said ordinance, vote or appointment is operative for more than three months during said municipal election year.

Section 5-6. Transfer of Appropriations; Restrictions

On recommendation of the Mayor, the full City Council may, by majority vote, transfer any amount appropriated for the use of any department to another appropriation for the same department, but no transfer shall be made of any amount appropriated for the use of any department to the appropriation for any other department except by a two-thirds vote of the full City Council on recommendation of the Mayor and with the written approval of the amount of such transfer by the department having control of the appropriation from which the transfer is proposed to be made. No approval other than that expressly provided herein shall be required for any transfer under the provisions of this section.

(a) The Mayor shall be responsible for the administration of the classification and compensation plans.

(b) The Mayor shall administer the plans and shall establish such procedures as necessary for the proper administration thereof.

(c) The Mayor may employ assistance and incur expenses as necessary within the limit of total appropriation of funds as adopted by the City Council in the fiscal budget.

(d) The Mayor shall maintain personnel records of all employees occupying positions subject to the classification and compensation plans.

(e) The Mayor from time to time shall investigate the work features and rates of salaries or wages of any or all positions subject to the provisions of this ordinance. Such reviews shall be made at such intervals as the Mayor deems necessary and, to the extent which the Mayor considers practicable, shall include all occupational groups in the classification plan.

(f) The Mayor shall cause to have written job descriptions or specifica-

tions of the classes in the classification plan, each consisting of a statement describing the essential nature of the work and the characteristics that distinguish the class from other classes. The description for any class shall be construed solely as a means of identification and not as prescribing what the duties or responsibilities of any position shall be, or as modifying, or in any way affecting the power of any administrative authority, as otherwise existing, to appoint, to assign duties to, or to direct and control the work of any employee under the jurisdiction of such authority.

(g) The Mayor may authorize a rate higher than the minimum rate for a position and/or such other variance in the compensation plan as he may deem necessary for the proper functioning of the services of the municipality.

Section 6-4. Classification Plan

(a) All positions in the service of the municipality, except those excluded by Section 1, are hereby classified by titles appearing in Schedules A through K of Section 7 which is made a part hereof. These classes of positions shall constitute the Classification Plan for paid municipal services.

(b) The title of each class, as established by the Classification Plan, shall be the official title of every position allocated to the class and the official title of each incumbent of a position so allocated and shall be used to the exclusion of all other on payrolls, budget estimates and other official records and reports pertaining to the position.

(c) The title of a position which is held by an employee with a dual or a multiple Civil Service rating shall be that recommended by the employee's department head, or by the administrative authority having jurisdiction over the organization unit to which the employee is assigned with the approval of the Mayor.

(d) Whenever a new position is established or the duties of an existing position are so changed that in effect a new position is created, upon presentation of substantiating data satisfactory to the Mayor, the Mayor shall allocate such new or changed position to its appropriate class.

(e) No position may be reclassified until the Mayor shall have determined such reclassification to be consistent with the Classification Plan. The Mayor may, however, when he considers such action to be necessary for the proper functioning of services, authorize a new classification and assign same to an existing compensation grade or determine the rate to be paid to an incumbent employee.

(Ord. #864, Eff. July 1, 2012; as further amended by Ord. #876, Eff. July 1st., 2014)

Section 6-5. Compensation Plan

(a) The Compensation Plan shall consist of Schedules A through K of Section 7 which provide minimum and maximum salaries or wages for certain of the classes in the

classification. The salary range of a class shall be the salary range of all positions allocated to the class. If no range is provided, the single rate appearing in Schedules A through K shall be the basis of compensation paid to an employee occupying a position under the appropriate class title.

(b) Each employee shall continue to be paid on the same basis as in effect at the time of adoption of this ordinance unless otherwise provided in the Compensation Plan.

(c) No administrative authority shall fix the salary of any employee in a position in the Classification Plan except in accordance with the Compensation Plan.

(e) An employee in continuous employment in a class appearing on Schedules A through K of Section 7 shall receive the increment between his/her present rate and the next higher step rate as follows:

(1) For current employees, after completion of six months at the minimum or entrance rate:

(2) For employees hired on or after March 1, 2015, after completion of one year at the minimum or entrance rate;

(3) Thereafter, one year from the date of his/her previous increase.

(4) The increase in rate which this increment represents must be recommended by the employee's department head and approved by the Mayor.

(5) The increase shall be based on performance of the employee during the preceding period (six or twelve months as applicable) and not solely on length of service.

(f) An employee receiving a promotion to a vacant position or to a new position as defined in Section 4(d) shall, upon assignment resulting from such promotion, receive the rate in the compensation grade of the vacant or new position next above his/her existing rate. If the resulting adjustment is less than Five Hundred Dollars (\$500.00) on an annual basis for a position class assigned to Schedules A through K, the adjustment shall be the second rate above the existing rate but within the compensation grade of the vacant or new position.

(g) The employee receiving a promotion and adjustment in rate pursuant to the provisions of the preceding sub-section may receive the next increment of his/her compensation grade effective following completion of twelve months at the rate resulting from the promotion.

(i) Each administrative authority shall include in its estimates, required by the provisions of Section 31A of Chapter 44 of the General Laws, a pay adjustment section setting forth in detail the amounts which will be required for anticipated pay adjustments during the ensuing year and shall furnish a copy thereof to the Mayor.

Section 6-6. Amendment of the Plans

(a) The Classification Plan and/or Compensation Plan and/or other provisions of the ordinance may be amended by vote of the City Council in the same manner as other ordinances of the municipality may be amended. However, no amendment shall be considered or voted on by the City Council unless the proposed amendment has first been presented to the Mayor for consideration fifteen days prior and is recommended by the Mayor. Provided further that no amendment to the Compensation Plan which provides for an increase in compensation for any position shall be introduced or voted on unless it has been submitted for consideration by the Mayor.

(b) The recommendation of the Mayor as to proposed amendment shall be made to the City Council before a vote is taken thereon. A proposed amendment must be submitted to the City Council substantially as presented to and as heard by the Mayor.

(c) Similarly, the Mayor shall report to the City Council as a part of its estimates of municipal expenditures the impact of a proposed amendment which is approved by the Mayor, together with such recommendation or recommendations as the Mayor deems expedient.

(a) Upon adoption of this amended ordinance, the rate of each eligible employee occupying a position in the Classification Plan shall be adjusted retroactive to July 1st of the fiscal year of adoption, unless otherwise stipulated.

(b) The rate of each eligible employee shall be adjusted to the same corresponding step rate in his/her designated compensation grade as the step rate which he/she occupied on July 1st of the year of adoption. If his/her rate as of July 1st of the year of adoption is below the minimum rate of his/her new compensation grade, the adjustment shall be to the minimum of the new compensation grade.

(e) If an employee's rate at the time of adoption is above the maximum rate of his/her appropriated new compensation grade, his/her rate shall become a personal rate and, as defined in Section 2, shall apply to the subject employee and not to the position.

(f) The next adjustment for which an employee occupying a position in the Classification Plan shall be eligible, following the initial adjustment received pursuant to sub-sections (a), (b), (c), or (d) of this section, shall be pursuant to Section 5(3); one year shall ensue prior to any such adjustment, except an adjustment from the entrance rate, unless otherwise stipulated by the Mayor, but in no instance, less than six months prior.

CHAPTER 12 - WETLANDS PROTECTION

Section 12-1. Application

The purpose of this ordinance is to protect the wetlands of the City of Methuen by controlling activities deemed to have a significant effect upon wetland values, including but not limited to the following: public or private water supply, ground water, flood control, erosion control, storm damage prevention, water pollution, fisheries, shellfish, wildlife, wildlife habitats, water recharge areas, flood plains, recreation and aesthetics (collectively, the "interests protected by this ordinance").

No person shall remove, fill, dredge, alter or build upon or within one hundred feet of any bank, fresh water wetland, coastal wetland, beach, dune, flat, marsh, meadow, bog, swamp, or on any estuary, creek, river, stream, pond or lake, or any land under said water or any land subject to tidal action, coastal storm flowage, flooding or inundation, or within one hundred feet of the one hundred year storm line, other than in the course of maintaining, repairing or replacing but not substantially changing or enlarging an existing and lawfully located structure or facility used in the service of the public and used to provide electric, gas, water, sanitary sewers, public roadways, storm drainage systems, telephone, telegraph and other telecommunication services, provided however, that such person shall file with the Conservation Commission within forty-eight hours, a notice or as-built plan of such repair or replacement and listing individuals involved, work undertaken, location and date without filing written application for a permit so to remove, fill, dredge, alter or build upon, including such plans as may be necessary to describe such proposed activity and its effect on the environment, and receiving and complying with a permit issued pursuant to this ordinance.

Such application may be identical in form to a notice of intent filed pursuant to Chapter 131, Section 40 of the General Laws and shall be sent by certified mail to the Methuen Conservation Commission (the "Commission"), shall be accompanied by a filing fee as provided for in Section 12-10, payable to the City of Methuen, and may be filed before other permits, variances and approvals required by the Zoning Ordinance, Subdivision Control Law or any other ordinance or regulation have been obtained. Copies of the application shall be sent at the same time, by certified mail, to the Director of Public Works, the Community Development Board and the Board of Health. Upon written request of any person, the Commission shall, within twenty-one days, make a written determination as to whether this ordinance is applicable to any land or work thereon. When the person requesting a determination is other than the owner, notice of the determination shall be sent to the owner as well as to the requesting person.

(As Amended by Ord. #274, Eff. Dec. 2, 1987.)

Section 12-2. Hearing

The Commission shall hold a public hearing on the application within twenty-one days of its receipt. Notice of the time and place of the hearing shall be given by the Commission at the expense of the applicant, not less than five days prior to the hearing, by publication in a newspaper of general circulation in Methuen and by mailing a notice to the applicant, the Board of Health, the Director of Public Works, Community Development Board and to such other persons as follows: to all other abutters within one hundred feet of the property line of the land where the activity is proposed, at the mailing addresses shown on the most recent applicable tax list of the assessors, including, but not limited to, owners of land directly opposite said proposed activity on any public or private street or way, and in another municipality or across a body of water. The Commission, its agents, officers and employees, may enter upon privately owned land for the purpose of performing their duties under this ordinance and may make or cause to be made such exam or survey as deemed necessary.

A final, definitive vote may be taken on the application on the night of the public hearing.

The remaining provisions of said Ordinance shall remain in full force and effect.

(As amended by Ord. #610, Eff. June 4th, 1997; as amended by Ord. #690, Eff. February 17th, 2000, as amended by Ord. #885, Eff. February 4th, 2015)

Section 12-2.1. Permit and Conditions

A. If, after the public hearing, the Commission determines that the area which is the subject of the application is significant to the interests protected by this ordinance, the Commission shall, within twenty-one days of such hearing, issue or deny a permit for the work requested. If it issues a permit after making such determination, the Commission shall impose such conditions as it determines are necessary or desirable for protection of those interests, and all work shall be done in accordance with those conditions. If the Commission determines that the area which is the subject of the application is not significant to the interests protected by this ordinance, or that the proposed activity does not require the imposition of conditions, it shall issue a permit without conditions within twenty-one days of the public hearing. Permits shall have a maximum initial term of three years. Any request for an extension must be made at least thirty days prior to expiration, otherwise all work shall be completed prior to expiration.

B. In the event that a negative order of conditions should issue, the Conservation Commission shall state, in detail, its reasons why the proposal does not conform to the rules and regulations of the commission or the wetlands ordinance.

Should the applicant thereafter modify its plans and submittals in the notice of intent to conform to the rules and regulations and the wetlands ordinance, then, and in that

instance, it may request, and the Conservation Commission shall grant, a hearing, at which an amendment to allow approval or modification of the order of conditions shall be considered.

Such hearing on the amended notice of intent and order of conditions shall be duly publicized in a newspaper of general circulation, as well as service upon the abutters.

If, after the hearing, the commission finds that the plans, as modified, now meet the rules and regulations, as well as the ordinance, it shall revoke its negative order of conditions and grant a positive order of conditions.

This provision shall be applicable to all filings for the years 1987 and 1988 retroactively, and, prospectively as to all new filings.

(As amended by Ord. #316, effective December 12th, 1988)

Section 12-2.2. Relationship to Chapter 131, Section 40

The Commission shall not impose additional or more stringent conditions pursuant to Chapter 131, Section 40 of the General Laws than it imposes pursuant to this ordinance, nor shall it require a notice of intention pursuant to Section 40 to provide materials or data in addition to those required pursuant to this ordinance, except as provided herein.

Section 12-3. Emergency Projects

This ordinance shall not apply to any emergency project as defined in Chapter 131, Section 40 of the General Laws, provided however, that a written notice shall be sent to the Conservation Commission within forty-eight hours after the emergency was declared as per terms and conditions stated in Section 12-1 of this ordinance.

Section 12-4. Pre-Acquisition Violation

Any person who purchases, inherits or otherwise acquires real estate upon which work has been done in violation of the provisions of this ordinance or in violation of any permit issued pursuant to this ordinance shall forthwith comply with any such order or restore such land to this condition prior to any such violation; provided however, that no action, civil or criminal, shall be brought against such person unless commenced within three years following the date of acquisition of the real estate by such person.

Section 12-5. Regulations

After due notice and public hearing, the Commission may promulgate rules and regulations to effectuate the purposes of this ordinance. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this ordinance.

Section 12-6. Burden of Proof

The applicant shall have the burden of proving by a preponderance of the credible evidence that the work proposed in the application will not harm the interests protected by this ordinance. Failure to provide adequate evidence to the Commission supporting a determination that the proposed work will not harm the interests protected by this ordinance shall be sufficient to cause for the Commission to deny a permit or grant a permit with conditions, or, in the Commission's discretion, to continue the hearing to another date to enable the applicant or others to present additional evidence.

CHAPTER 13 - LICENSING

Preamble

Standard Governing Issuance of Licenses Under Chapter 13, Methuen Municipal Code

Unless otherwise specifically provided for in the General Laws of the Commonwealth or the provisions of specific licenses as mentioned in Chapter 13, the following standards shall govern:

A. Applications for Licenses

Any request for a permit or license under Chapter 13 of this code shall be made in writing on a form prepared and/or approved by the City Clerk. Such application shall completely and truthfully divulge all information sought thereon for the purposes of determining whether or not the license of permit shall issue. Any application not completely filled out shall constitute just cause to reject the same for acceptance by the City Clerk. Further any application which, in the opinion of the Methuen City Council is subsequently found not to have divulged completely and fully the information sought thereon, may, if the City Council feels that it was material to the original issuance, constitute reason to revoke at a later date such license or permit.

B. Issuance of Licenses

The City Council may, at a duly called meeting, approve such application and issue a license or permit thereon to any person so named in the application, upon such terms and conditions as they, in their opinion, believe protect the interests of the citizens of the City of Methuen.

C. Revocation - Temporary and Permanent

Licenses granted under this chapter may be suspended by the Chief of Police if the licensee or permit holder is violating any statute, ordinance or condition of the license or permit, and, such temporary suspension may be for a period not to exceed two (2) weeks. During the time of such suspension, the City Council, may, if it so chooses, conduct a hearing to determine whether or not it should revoke such license or permit. Such licenses or permits may

be revoked by the City Council for violation of statute, ordinance or condition of the license or permit relating to the operation of the business licensed thereunder and may include, as reasons therefore, failure of the licensee or permit holder to carry on the business at the place designated in the license or permit, failure to completely and truthfully and materially answer all questions on the application, or for other cause deemed sufficient by the Methuen City Council.

D. Rights of Licenses or Permit Holder

The issuance of any license or permit hereunder implies no intention to create rights generally for the holder to engage or to continue to engage in the transaction of business authorized by such license or permit, but is enacted with only the view to serve the public need and in such a manner as to protect the public good. The holder of such license or permit shall have no property rights in this or any other document or paper evidencing the granting of the license or permit and the City, acting by and through its City Council, shall, upon the expiration, suspension, revocation, cancellation or forfeiture of such license or permit, be entitled, upon demand, to immediate possession thereof.

In addition to the revocation provisions as mentioned above, the City Council may, after a hearing duly called thereon, modify, suspend, revoke or cancel the license or permit where the public necessity so requires.

E. Pledging

Any license or permit granted under Chapter 13 may not be pledged by the license or permit holder for a loan unless the approval of such loan and pledge is given by the City Council; nor may such license be transferred from one location to another or from one holder to another except with the express permission of the City Council.

F. Display of Licenses

Such licenses, when duly issued and approved by the City Council, shall be signed by the City Clerk and a copy thereof maintained by the licensee or permit holder and prominently displayed upon the licensed premises.

G. Coverage of License or Permit

A license or permit issued under this Chapter shall not protect the holder thereof from criminal or civil prosecution when such license or permit is attempted to be used in a building or place other than that designated in the license or permit unless consent to such is granted by the City Council.

All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this ordinance shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater", published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally but not always, BOD and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples.)

(1) All industries discharging into a public sewer shall perform such monitoring of their discharges as the Director or District and/or other duly

authorized employees of the City may reasonably require, including installation, use, and maintenance of monitoring equipment, keeping records and reporting the results of such monitoring to the Director or District. Such records shall be made available upon request by the Director or District to other agencies having jurisdiction over discharges to the receiving waters.

M. No statement contained in this Article shall be construed as preventing any special agreement or arrangement between the City and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the City for treatment subject to payment, therefor, by the industrial concern.

N. Future connections to facilities constructed by the City shall be designed by criteria established by the Director and constructed by the person desiring the additional connection after review and approval of the plans and specifications by the Director.

Article IV. Protection from Damage

No unauthorized person shall maliciously, willfully or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance, or equipment which is part of the wastewater works. Any person violating this provision shall be subject to immediate arrest under charge of disorderly conduct.

Article V. Powers and Authority of Inspectors

A. The Director and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling, and testing in accordance with the provisions of this ordinance.

The Director, or his representative, shall have no authority to inquire into any processes including metallurgical, chemical, oil, refining, ceramic, paper, or other industries beyond that point having a direct bearing on the kind and source of discharge to the sewers or waterways or facilities for wastes treatment.

B. While performing the necessary work on private properties referred to in Article V, Section A., above, the Director or duly authorized employees of the City shall observe all safety rules applicable to the premises established by the company and the company shall be held harmless for injury or death to the City employees, except such as may be caused by negligence or failure of the company to maintain safe conditions as required in Article III, Section I.

C. The Director and other duly authorized employees of the City bearing proper credentials and identification, shall be permitted to enter all private properties through which the City holds a duly negotiated easement for the purposes of, but not limited to, inspection,

observation, measurement, sampling, repair and maintenance of any portion of the wastewater works lying within said easement. All entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

Article VI. Penalties

A. Any person found to be violating any provisions of this ordinance shall be served by the City with written notice, stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, cease all violations.

B. Any person who shall continue any violation beyond the time limit provided for in Article VI, Section A, shall be guilty of a misdemeanor and on conviction thereof, shall be fined in the amount not exceeding Twenty Dollars (\$20.00) for each violation. Each day in which any such violation shall continue shall be deemed a separate offense.

C. Any person violating any of the provisions of this ordinance shall become liable to the City for any expense, loss or damage occasioned the City by reason of such violation.

Article VII. Sewer User Charges

A. Sewer Fees and Charges; Public Hearings; Council Action

The City Council of the City of Methuen may establish such fees, charges and costs for the operation of the sewer system provided that no such fee, charge or cost may be implemented until a public hearing shall be held by it. Said hearing shall be held within forty-five (45) days of the submission to the City Council of a resolution to establish such fee, charge or cost. Said public hearing shall be advertised in a newspaper of general circulation in said City at least seven (7) days prior to the hearing. The City Council shall take action on such proposed fee, charge or cost within thirty (30) days after said hearing. Provided that no such increase shall take effect excepting as may be approved by a two-thirds vote of the full City Council.

B. No adjustments are to be granted for water used which is not eventually disposed of in a sanitary sewer, unless the customer:

(a) In the case of maintenance of lawns and the like, at his own expense, installs a water meter to measure such usage; or

(b) In the case of swimming pools, such adjustment may be made for filling the pool on the basis of either (1) reading the existing water meter by City personnel before and after filling, or (2) by determining the capacity of the pool by City personnel. The Director of Public Works is empowered to utilize either of the above methods in determining the amount to be adjusted.

C. That, for the purposes of abatement, the Director of Public Works shall be determined to be the officer having control of the Sewer Department (Division) within the meaning of Chapter 83, Section 16E of the General Laws.

Article VIII. Validity

A. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

B. The invalidity of any section, clause, sentence or provision of this ordinance shall not affect the validity of any other part of this ordinance which can be given effect without such invalid part or parts.

Article X. Mandating Sewer Connections

A. All new construction of residential and commercial buildings upon land abutting a public or private way in which there is a common sewer shall connect the same therewith by a sufficient drain. This requirement shall apply to all lots on a subdivision where such subdivision abuts a public or private way in which there is a common sewer.

B. The owner or occupant of any building upon land abutting a public or private way in which there is a common sewer and whose septic system has failed shall connect the same therewith by a sufficient drain within three months of said failure.

C. A variance from the requirements of Sections A. and B. herein may be granted by the Board of Health on the following conditions: that said land, by reason of its grade or level or any other cause, cannot be drained into such sewer, until such incapacity is removed, and, further, provided that the present septic system will be repaired or replaced which meets the requirements of the Board of Health; said variance to be only for so long as said system continues to meet those requirements as they may be amended or revised.

(Ord. #575, Eff. July 31st, 1996)

Article XI. Pumping Station Maintenance Fee

It shall be the policy of the City of Methuen not to accept pumping stations which have been established as part of the subdivision process excepting in the instance where the individual seeking the municipal acceptance of the same shall, simultaneously with the request, submit to the City of Methuen the sum of Twenty-five Thousand Dollars (\$25,000.00) to represent the maintenance fee for the pumping station. Said monies shall be held in a separate account and utilized under authority of the Mayor and Department of Public Works Director for the maintenance of such pumping station.

B. The Community Development Department is directed to notify all parties during the permitting process who may utilize a pumping station that said pumping station will not be accepted unless said fee is paid.

All monies paid to the City for such sale shall be reported forthwith to the City Accountant.

(1973 Ord. as amended by Ord. #39, Oct. 1975; as amended by Ord. #274, Eff. Dec. 2nd, 1987.)

Section 15-4. Cross Connection Control

4.1 Purpose.

The purpose of this ordinance is:

- 4.1.1 To protect the public potable water supply served by the Methuen Water Department from the possibility of contamination or pollution by isolating such contaminants or pollutants which could backflow or backsiphon into the public water system.

- 4.1.2 To promote the elimination or control of existing cross connections, actual or potential, between its customers in-plant potable water system, and non-potable systems.
- 4.1.3 To provide for the maintenance of a continuing program of cross connection control which will effectively prevent the contamination or pollution of all potable water systems by cross connection.

4.2 Authority.

As provided in the Federal Drinking Water Act of 1974, (Public Law 93-523), and the Commonwealth of Massachusetts Drinking Water Regulations, 310 CMR 22.22, the water surveyor has the primary responsibility for preventing water from unapproved sources or any other substances from entering the public potable water system.

4.3 Responsibility.

The Director of Public Works shall be responsible for the protection of the public potable water distribution system from contamination or pollution due to the backflow or backsiphonage of contaminants or pollutants. If, as a result of a survey of the premises, the Director of Public Works determines that an approved backflow prevention device is required at the City's water service connection or as in- plant protection on any customer's premises, the Director of Public Works, or his delegated representative, shall issue a cross connection violation form to said customer to install approved backflow prevention devices. The customer shall, within a time frame determined by the Director of Public Works, install such approved device or devices at his own expense, and failure or refusal or inability on the part of the customer to install said device or devices within the specified time frame shall constitute a ground for discontinuing water service to the premises until such device or devices have been properly installed.

4.4 Definitions.

4.5 Administration

- 4.5.1 The Director of Public Works will operate an active cross connection control program. The Director of Public Works will have a delegated agent or representative that will test all backflow preventers according to 310 CMR 22.22 schedules. The program will include the keeping of necessary records, which fulfills the requirements of 310 CMR 22.22.
- 4.5.2 The owner shall allow his property to be inspected for possible cross connections and shall follow the provisions of the Director of Public Works' program and the Department's regulations.

4.6 Requirements

4.6.1 Director of Public Works

- 4.6.1.1 On new installations, the Director of Public Works will provide on-site evaluations and/or inspection of plans in order to determine the type of backflow preventer, if any, that will be required, and notify the owner of plan approval requirements by the appropriate reviewing authority.
- 4.6.1.2 For premises existing prior to the start of this program, the Director of Public Works will perform surveys of the premises and reviews of as-built plans and issue a cross connection violation form to the owner detailing any corrective action required, the method of achieving the correction, and the time allowed for the correction to be made. The time period allowed shall depend upon the degree of hazard involved.
- 4.6.1.3 The Director of Public Works will not allow any cross connection to remain unless it is protected by an approved backflow preventer for which a permit has been issued and which will be regularly tested to insure satisfactory operation.
- 4.6.1.4 If the Director of Public Works determines at any time that a serious threat to the public health exists, the water service will be terminated immediately.
- 4.6.1.5 The Director of Public Works will begin initial premise inspections to determine the nature of existing or potential hazards, following the approval of this program by this Department, during calendar year 1988. Initial focus will be on high hazard industries and commercial premises.
- 4.6.1.6 The Director of Public Works strongly recommends that all new and retrofit installations of reduced pressure preventers and double check valve assemblies include the installation of strainers located immediately upstream of the backflow device. The installation of strainers will preclude the fouling of backflow devices due to both foreseen and unforeseen circumstances occurring to the water supply system such as

water main repairs, water main breaks, fires, periodic cleaning and flushing of mains, etc. These occurrences may "stir up" debris within the water main that will cause fouling of backflow devices installed without the benefit of strainers.

4.6.2 Owner

4.6.2.1 The Owner shall be responsible for the elimination or protection of all cross connections on his premises.

4.6.2.2 The Owner shall be responsible for applying for and obtaining all necessary approvals and permits for the maintenance of cross connections and installations of backflow prevention devices.

4.6.2.3 The Owner shall have any device that fails an inspection or test repaired by a licensed plumber.

4.6.2.4 The Owner shall inform the Director of Public Works of any proposed or modified cross connection and also any existing cross connections of which the owner is aware but has not been found by the Director of Works or his designated agent.

Public

4.6.2.5 The Owner shall not install a by-pass around any backflow preventer unless there is a backflow preventer of the same type on the by-pass. Owners who cannot shut down operation for testing of the device(s) must supply additional devices necessary to allow testing to take place.

4.6.2.6 The Owner shall install backflow preventers in a manner approved by the Department and by the Director of Public Works.

4.6.2.7 The Owner shall install only reduced pressure backflow preventers and double check valve assemblies approved by D.E.P.

4.6.2.8 All non-residential facilities that have a separate water source shall not connect to the public water supply without approval from the Director of Public Works. The Owner shall install a reduced pressure device at the service entrance if another water system exists at the premises.

4.6.2.9 The owner of any residential premises having a private well or other private water source will not be allowed a physical connection with the public water supply system.

4.6.2.10 The Owner shall be responsible for the payment of all fees for permits, device tests, re-tests and re-inspections for non-compliance.

4.6.2.11 The Owner shall be responsible for providing labor on the premises as

necessary to allow inspection and testing of devices by the Director of Public Works or his designated agent.

- 4.6.2.12 The Owner shall be responsible for having complete repair kits for each device on the premises. If the device cannot be repaired, the Owner must replace the device.

4.7 Existing In-use Backflow Prevention Devices

Any existing backflow preventer shall be allowed by the Director of Public Works to continue in service unless the degree of hazard is such as to supersede the effectiveness of the present backflow preventer or result in an unreasonable risk to the public health. Where the degree of hazard has increased, as in the case of a residential installation converting to a business establishment, any existing backflow preventer must be upgraded to a reduced pressure backflow preventer, or a reduced pressure backflow preventer must be installed in the event that no backflow device was present.

4.8 Periodic Testing

- 4.8.1 Double check valve assemblies shall be tested annually. Reduced pressure backflow preventers shall be tested semi-annually by the Director of Public Works or his/her delegated agent.
- 4.8.2 Periodic testing shall be performed by the Director of Public Works' certified tester or his delegated representative.
- 4.8.3 The testing shall be conducted during the Director of Public Works regular business hours. Exceptions to this, when at the request of the Owner, may require additional charges to cover the increased costs to the Director of Public Works or his delegated agent.
- 4.8.4 Any backflow preventer which fails during a periodic test must be repaired or replaced by a licensed plumber. When repairs are necessary, upon completion of the repair, the device will be re-tested at the Owner's expense to insure proper operation. High hazard situations will not be allowed to continue unprotected if the backflow preventer fails the test and cannot be repaired immediately. In other situations, a date of not more than fourteen days after the test date will be established. Parallel installation of two devices is an effective means of the Owner insuring that uninterrupted water service remains during testing or repair of devices and is strongly recommended when the owner desires such continuity.
- 4.8.5 Backflow prevention devices will be tested more frequently than specified previously in Section 4.9.1 in cases where there is a history of test failures and the Director of Public Works feels that due to the degree of hazard involved, additional testing is warranted. Cost of the additional tests will be borne by the Owner.

4.9 Enforcement

- 4.9.1 Whoever maintains a cross connection without a permit, or after revocation of the permit to maintain such connection, and whoever maintains a cross connection without installing the appropriate backflow prevention device required by 310 CMR 22.22 and by the reviewing authority, shall be:
- (a) Punished by a fine of not more than \$25,000 for each day such violation occurs or continues, or, by imprisonment for not more than one year, or, both such fine and imprisonment; or
 - (b) Subject to a civil penalty not to exceed \$25,000 per day for each day that such violation occurs or continues.
- 4.9.2 Any violation of 310 CMR 22.22 shall be subject to the administrative penalty provisions of 310 CMR 5.00.
- 4.9.3 Upon due notice to the person maintaining the connection, the Director of Public Works may revoke any permit whenever, in the opinion of the Director of Public works, the cross connection or the maintenance thereof no longer complies with 310 CMR 22.22.
- 4.9.4 In order to ensure the delivery of a safe water supply, the Director of Public Works may issue a written order to cease supplying water to any premises if one or more cross connections are maintained in violation of the requirements of 310 CMR 22.22, or requiring any person to take such actions as are reasonable and necessary to prevent or to eliminate cross connections.
- 4.9.5 Cross connection violations shall require a corrective action plan to be submitted to the Cross Connection Office within thirty days of the violation discovery. If the Owner of any premises does not initiate corrective actions by the prescribed deadline, then the Director of Public Works will terminate service to the premises.
- 4.9.6 Owners of cross connection devices must consent to the testing of any device on their premises within fourteen days of notice from the Director of Public Works or his/her agent. If consent is not granted within the fourteen day notice, the Director of Public Works may impose a fine of Five Hundred Dollars per day for each day that consent to test is denied and/or water service will be terminated.
- 4.9.7 Failure to repair a failed device within fourteen days constitutes a violation and the Director of Public Works may impose a fine of Five Hundred Dollars per day for each day that consent to test is denied and/or water service will be terminated.

4.10 Records and Reports

- 4.10.1 Records. The Director of Public Works or his/her agent shall initiate and maintain the following: (1) Master files of customer cross connection surveys, violations and backflow device tests; (2) Master files of all approved installations; and (3) All correspondence received by or submitted to the Department.
- 4.10.2 Reports. The Director of Public Works or his/her agent shall submit the following to the Department: (1) The quarterly CCCP report; and (2) The cross connection annual report.

4.11 Fees

Permit and testing fees are established by the Director of Public Works.

(Ord. #311, Eff. Nov. 21st, 1988; as amended by Ord. #356, Eff. Nov. 15th, 1989; as further amended by Ord. #631, Eff. March 9th, 1998)

Section 15-5. Water Fees and Charges; Public Hearings; Council Action

The City Council of the City of Methuen may establish such fees, charges and costs for the operation of the water system provided that no such fee, charge or cost may be implemented until a public hearing shall be held by it. Said hearing shall be held within forty-five (45) days of the submission to the City Council of a resolution to establish such fee, charge or cost. Said public hearing shall be advertised in a newspaper of general circulation in said City at least seven (7) days prior to the hearing. The City Council shall take action on such proposed fee, charge or cost within thirty (30) days after said hearing. Provided that no such increase shall take effect excepting as may be approved by a two-thirds vote of the full City Council.

Section 15-6. Reserved

Section 15-7. Abatements

For the purposes of abatement, the Director of Public Works shall be determined to be the officer having control of the Water Department within the meaning of Chapter 40, Section 42E of the General Laws.

Section 15-8. Procedure for Shutting Off the Flow of Water on Failure to Pay Lawful Charges

A. Statement of Purpose

The citizens of Methuen, acting in referendum, accepted the provisions of General Laws, Chapter 44, Section 53F -1/2, providing for enterprise fund accounting of water

service costs. Inherent in the proper functioning of such system is the timely payment of the lawful rates and charges by all water customers to insure the financial health of the service provided to the inhabitants.

B. Statement of Lawful Authority

The citizens of Methuen, acting by and through their duly elected representatives, accepted the provisions of General Laws, Chapter 40, Sections 42A to 42F. Section 42B of General Laws, Chapter 40, authorizes, in addition to a lien process, the collection through any lawful means, "including the shutting off of water, which may be deemed advisable".

C. Implementation of Water Shut-Off Program

By this ordinance, the Director of Public Works, upon approval of the Mayor, is authorized to shut off water service which the Mayor deems advisable within the meaning of General Laws, Chapter 40, Section 42B, provided that, after the termination of the lien established under General Laws, Chapter 40, Section 42B, the City shall not shut off said water as to any person not liable therefor who has succeeded to the title or interest of the person incurring such rate or charge.

D. Procedure for Shutting Off the Flow of Water on Failure to Pay Lawful Charges

Upon authorization of the Mayor, the Director of Public Works shall cause to be served a notice of payment default and service shut-off upon a person in arrears on a rate or charge in excess of six months. Such notice shall comply with Paragraph H. herein and shall be served by certified mail. Said notice shall advise the person that the water service may be shut off if the overdue amount is not paid within thirty days thereafter. Said notice shall advise the person that he/she may request a hearing within seventy-two hours of receipt of the notice before the Treasurer/Tax Collector to contest the amount in arrears as being incorrect. Subsequent to the thirty days, if no hearing is requested or if a hearing is requested and the Treasurer/Tax Collector finally determines the account is in arrears and the amount of the arrearage, the Mayor may order the immediate shut-off of service.

E. Entry to Terminate Service

Upon a proper order issued by the Mayor, the Director of Public Works, or his agents, may shut off the flow of water from its mains or pipes to the premises of any customer who has failed or refused to pay the lawful charges of the City for water previously consumed. The Director, or his employees or agents, may, upon any business day between the hours of Eight Ante-Meridian and Four Post-Meridian, enter upon the premises of a customer whose payments are in arrears and close a valve, remove or disconnect a meter or pipe or fitting, if necessary, for the purposes of shutting off the flow of water as above authorized.

F. Unlawful Interference

It shall be unlawful for any person to:

A. Hinder or interfere with the Director of Public Works, or his employees or agents, while they are in the process of shutting off the flow of water service in accordance with Paragraph E. herein; or

B. Re-establish said flow of water after it is disconnected without the approval of the Director of Public Works.

Any person violating the provisions of this paragraph shall be subject to a fine of Three Hundred Dollars (\$300.00).

G. Prohibitions Against Shutting Off Water

A. The City shall not shut off the water service to any domicile occupied by a person who is seriously ill if the Director of Public Works or the Mayor receives written notice from the Director of Public Health or a registered physician verifying the fact of such illness.

No street or way, except an old way which contains all services and where it would be physically impossible to comply strictly with the law and provided that these requirements are approved by the Community Development Board, shall hereafter be approved by the Community Development Board or laid out, established or accepted by the City of a width less than forty feet. Provided, that this provision shall not apply to streets controlled by the Subdivision Control Regulation. All petitions for the relocation, laying out and establishment, widening, alteration or discontinuance of streets and ways shall be presented to the City Council, which shall by itself, or by such other officers as it may lawfully designate for the purpose, determine whether or not the common convenience and necessity require that such street or way shall be relocated, laid out and established, widened, altered or discontinued.

In case the City Council shall determine that such street or way should be relocated, laid out and established, widened, altered or discontinued, it shall cause the measurements and boundaries of that street or way as proposed to be relocated, laid out and established, widened, altered or discontinued to be distinctly marked out on the premises by the Engineering Division of the Department of Public Works, and a plan thereof made by the Division showing the grade and location of such alterations, together with report specifying the manner in which such relocating, laying out and establishment, widening, altering or is continuing shall be completed. Provided further, that the Subdivision Control Laws, where applicable, shall be fully complied with.

Section 16-3. Contents of Report; Accompanying Agreements, Etc.

The report specified in the preceding section shall state the names of the owners of all lands affected thereby and in anyways subject to sustain damage or receive benefit by the relocating, laying out and establishing, widening, altering or discontinuing of such street or way, together with the amount of damage or benefit proper and reasonable to be awarded to or assessed on each of the owners. The report shall, in addition, in every case be accompanied by an agreement referring thereto, signed by all parties who claim no damage, and by all parties who will accept specific damages, with the amounts thereof; and shall include the names of all

other parties who decline to release or to state their prospective damages, and the names of all parties who, in the judgment of the officer or officers making the report, should be assessed for benefits conferred, together with the estimated amounts thereof.

Section 16-4. Notice of Intention; Hearing

Before any order for relocating, laying out and establishing, widening, altering or discontinuing any street or way shall be passed by the City Council, a written notice of the intention of the City Council to relocate, lay out and establish, widen, alter or discontinue such street or way shall be given and served in the manner provided by law, and such notice shall specify a time and place for hearing, before the City Council, to all persons and corporations interested. After the hearing shall have been held, the City Council may proceed to act upon an order for the relocating, laying out and establishing, widening, altering or discontinuing of such street or way.

Section 16-5. Sewers, Drains, Etc.

No street or way not shown on any plans approved, attested and filed according to law in the office of the Engineering Division of the Department of Public Works by the Community Development Board shall hereafter be laid out and established or accepted as a public street or way in the City, unless the sewers or drains therein or the culverts crossing such streets or ways are constructed in accordance with the directions of or are approved by the Director of the Department of Public Works in regard to the dimensions, materials and grades thereof.

Section 16-6. Acceptance of Private Ways; Standards of Construction

No street or way constructed on or through private lands by any person other than the City shall hereafter be laid out and established or accepted as a public street or way by the City Council unless the owner of the land over through which such private street or way is constructed shall have complied with, and such private street or way shall conform to, the requirements and specifications of the Community Development Board as provided by law or regulation.

No street or way constructed on private lands by the owners thereof shall be hereafter laid out or accepted as a public street, unless previously constructed and completed in accordance with the Construction Standards of the City of Methuen, pursuant to the subdivision Control Regulations.

Division 2. Care and Control of Ways

Section 16-7. Existing Street Names Accepted; Council to Name New Streets

The several streets, courts, avenues, squares, lanes and ways in the City shall

continue to be known and called by the names by which they are now known and called, until the same shall be altered by the City Council. The City Council shall give names to all streets, courts, avenues, squares, lanes and ways hereafter laid out and established or accepted, and may change such names at any time, subject to the provisions of law.

Section 16-7A Street Acceptance Protocol

Whenever the City Council formally accepts a street, the Department of Public Works, through its Director, shall arrange to coordinate the following:

Provided, however, that this shall not waiver the responsibilities of individuals governed pursuant to the provisions of the Subdivision Control Regulations of the City.

Subdivision II. Opening or Digging Up Ways

Section 16-9. Excavation of Public Streets

A. Any person, company or corporation, excavating public streets or ways for sewers, drains, water pipes, driveways, conduits or any other purposes, before starting work, shall apply in writing on forms provided for the purpose to the Department of Public Works (DPW) for a permit for the same. Such person shall execute and deliver to the City Clerk an indemnity bond in a sum satisfactory to the Director of Public Works to insure against all damages and loss

All excavations shall be filled in and finished as directed by and to the satisfaction of the Director of Public Works, or other person designated as having authority for such inspection by the City. The requirements of this section shall not be deemed met until the Director, or a person acting at his direction, signs or by other means denotes on the excavation permit that such work has been completed to the satisfaction of the municipality.

(See also 16-15, Blanket Bonds)

B. No permit to excavate any public way in order to enter any common sewer shall be granted, until all sewer assessments or charges levied against or imposed upon the premises, shall have been paid by such applicant so far as the same are due and payable.

C. Any person excavating land, or any person in charge of such excavation and any owner of land which has been excavated shall erect barriers or take other suitable measures within two (2) days after such owners have been notified in writing by the Department of Public Works, that, in their opinion, such excavation constitutes a hazard to public safety.

The penalty for violation of this ordinance shall be a fine of not less than Fifty Dollars (\$50.00), nor more than Two Hundred dollars (\$200.00) per day for every day such person is in violation of such notice commencing within the fourth day thereof.

D. Provided further that the surfaces of such street or way paved shall not thereafter for a period of five years from the completion of such paving be opened or dug up without a special license therefor granted by the City Council after the applicant has filed a bond of the kind and in the manner hereinafter described. Provided, however, that the Director of Public Works may issue such license in a clearly defined emergency situation.

E. The fee for the permit as provided in this section shall be Thirty Dollars (\$30.00).

Section 16-10. Replacement of Earth, Etc.

If the street, way or common in which the excavation is made is unpaved or unimproved, the backfilling on the line of excavation shall not exceed three inches in elevation above the undisturbed grounds at sides bordering the excavation, and the person making such excavation shall fill the same and shall be responsible for any settlement in such backfilling and shall repair the same whenever notified so to do by the Director of Public Works.

Section 16-11. Surface Restoration

If the street, way, sidewalk or common in which the excavation is made has been paved or improved, then the person making the excavation shall cause the same to be refilled in the following manner:

A. Gravel Roads

The top fifteen (15) inches of trench backfill shall be eleven (11) inches of processed gravel and four (4) inches on top of the gravel will be made with dense graded crushed stone that will consist of crusher-run coarse aggregates of crushed stone or gravel and fine aggregates of natural sand or stone screenings uniformly pre-mixed. This material is to be placed in a maximum of six (6) inch layers and thoroughly compacted mechanically to the grade of the existing surface.

B. Secondary Roads

A twelve (12) inch layer of processed gravel shall be placed and thoroughly compacted mechanically to within two (2) inches of the finish grade. The last two (2) inches shall be made with bituminous concrete (cold patch allowed) to form a temporary patch. For the permanent patch three (3) weeks after the excavation has been completed, the Contractor shall return and excavate to seven (7) inches below the finish grade and form a permanent patch with four (4) inches of dense graded crushed stone that will consist of crusher-run coarse aggregates of crushed stone or gravel and fine aggregates of natural sand or stone screenings uniformly pre-mixed and three (3) inches of bituminous concrete. The infrared method shall be used for all streets requiring a City Council special license (so-called five year roads) under section 16-9(d) and on those roads which in the determination of the Director of Public Works require such method. The Contractor shall notify the Engineer twenty-four (24) hours in advance before placing the permanent patch and receiving approval. The trench shall be maintained by the Contractor for a period of two (2) years after completion of the permanent patch.

C. High Volume Roads

A twelve (12) inch layer of processed gravel shall be placed and thoroughly compacted mechanically to within two (2) inches of the finish grade. The last two (2) inches shall be made with bituminous concrete to form a temporary patch for at least thirty (30) days. For the permanent patch, the trench shall be cut back twelve (12) inches on all sides and excavated to ten (10) inches below the finish grade. The trench will then be brought to finish grade with four (4) inches of dense graded crushed stone that will consist of crusher-run coarse aggregates of crushed stone or gravel and fine aggregates of natural sand or stone screenings uniformly pre-mixed and six (6) inches of bituminous concrete. The infrared method may be substituted for the placement of six (6) inches of bituminous concrete. The Contractor shall notify the Engineer at least twenty-four (24) hours in advance before placing the permanent patch and receiving approval. The trench shall be maintained by the Contractor for a period of two (2) years after completion of the permanent patch.

Section 16-12. Backfilling

The following section of trench shall be backfilled in one (1) foot layers and thoroughly mechanically compacted to a point fifteen (15) inches below the existing road grade. Backfilling shall be prosecuted as the work progresses and shall be kept complete up to such point of open excavation as shall be determined by the Director of Public Works or his designee.

Section 16-13. Streets not to be Occupied, Etc., Except Under Permit; Bond

The permit shall state the space in the street or other public place that may be occupied or obstructed, and the time allowed for such occupancy or obstruction, and shall contain such other lawful restrictions and regulations for the protection, convenience and safety of the public as the Director of Public Works may deem necessary. Before such permit shall be granted, the applicant therefor shall execute and deliver to the City a bond in such form as the City Solicitor shall approve and in a sum and with such surety as shall be satisfactory to the City Council, such bond to be conditioned to indemnify and save harmless the City from all costs, actions, suits and claims whatsoever arising from any and all work, occupation or obstruction authorized by the license, and to be further conditioned to restore the street or other public place so occupied or obstructed to its original condition, within the time specified in the license and to the satisfaction of the Director of Public Works.

If the surface of the street or public place is not to be disturbed by the occupancy or obstruction under such a permit, the applicant for a permit under this section may deposit with the City Clerk, in place of the indemnity bond called for, a public liability insurance policy approved as to form by the City Solicitor and issued by an insurance company authorized to do business in the Commonwealth, insuring the City for not less than five thousand dollars, or such other amount as determined by the Director of Public Works, against all claims, loss, costs, damage to persons or property and expense arising out of any action under such permits.

The licensee shall place signs and cones for the protection of the workers and the motoring public in accordance with the Massachusetts Department of Public Works' approved Safety Manual.

Section 16-15. Conditions of Bonds

The bond required by Section 16-13 to be given by any person for the replacing in proper and safe condition of streets, ways, sidewalks, or commons broken, disturbed, dug or torn up shall remain in force for two years after such work has been completed.

Instead of the bonds required of any person under the provisions of all or any of the preceding sections, such person may, by special arrangement with the City Council, file a blanket bond, so-called, in form approved by the City Solicitor, with surety satisfactory to the City Council. Such bond shall comprehend and include the various provisions of this Code under which permits shall be granted and to which permits it purports to relate as fully and completely as if a separate bond were given for each such permit, and the conditions thereof and the obligation of the principle and surety thereunder shall be in all respects the same as if separate bonds were given for each such permit, except that the aggregate sums required according as the City Council may order or direct.

(7) A filing fee of Twenty-Five Dollars (\$25.00) is required for a soil removal permit. The fee shall be waived when the applicant is the City of Methuen.

B. No permit shall be issued until the above requirements of Section III, Paragraph A, 1 through 7 are met. In the event that the above information is shown to be inaccurate or incomplete, the application shall be suspended until all provisions have been met.

C. A public hearing shall be held within twenty-one days of receipt of the application on which contains all necessary data required as per this Section III, Paragraph A, 1 through 7.

D. At least ten days prior to the hearing, notice must be sent to all abutters and the property owner by the Board. This notice must appear in a local daily newspaper of wide circulation in Methuen. The expense of the advertisement is to be borne by the owner.

E. For purposes of determining abutters under this ordinance, all contiguous land registered under names of individuals, corporations or trusts having common interest shall be considered as a single parcel. All persons owning land having at least one common boundary (including roads, bridges or waterways) with such single parcel shall be considered as abutters for the purposes of this ordinance.

F. After the public hearing, the Board must within twenty-one days approve or deny the permit.

G. Should a permit be denied, the Board will supply good and sufficient reason for such a denial. If the reason for denial is removed, the owner may re-apply without prejudice for another permit.

H. Each permit shall be issued subject to all applicable requirements under Section IV and to all specific conditions or restrictions the Board may deem necessary. The Board may at any time review existing permits and add or remove restrictions according to changed conditions by agreement with the permittee.

I. No permit will be issued if any requirement under Section IV cannot be met or if the Board finds that the proposed work will affect the public health, safety or welfare of the inhabitants of the City of Methuen.

J. Each permit shall contain an expiration date but may be extended by written request to the Board, provided no violations exist. Permit shall expire one year from the date of issue or when the work is completed, whichever comes first. Permits are automatically invalidated by expiration of the bond. Expiration of the permit shall not affect the obligation of the holder thereof to comply with all conditions and requirements of the permit nor release him or the surety on his bond from the obligations thereof.

Section IV. Permit Requirements

A. The following Operational Standards are required:

(1) During the life of the permit the following buffer areas are to be left in their natural state. All areas within:

(a) 100 feet of a public way and/or wetlands.

(b) At a distance suitable to obtain a finished slope of not greater than two to one to the lowest ground elevation.

(c) All areas within a distance determined by the Board of any occupied dwelling.

Natural vegetation shall be left and maintained in the buffer area(s) as determined by the Board, for screening and noise reduction purposes.

Operation of trucks (in and out) and all machinery including, but not limited to, dozers, shovels, loaders, chain saws, shredders, screens, etc., shall be limited to these hours. All loaded vehicles shall be suitably covered to prevent dust and contents from spilling and blowing from the vehicles.

(3) The working area shall not exceed five (5) acres at any given time, exception shall apply where the operation is further regulated by the provisions of Public Law 89-577 regulated by the U.S. Department of Interior, Mining Enforcement and Safety Administration Office.

(4) All topsoil shall be stripped from the work area and a sufficient amount stockpiled for use in restoring the area after the soil removal operations have ceased.

(5) During operations, when excavation is located closer than two hundred (200) feet from a residential area or one hundred (100) feet from a public way and where the excavation will have depth of more than fifteen (15) feet with a slope in excess of 1 to 1, a fence of at least four (4) feet high shall be erected to access to this area. To insure public safety, the Board may require the posting of signs reading "DANGER", "KEEP OUT" and/or "NO TRESPASSING - POLICE TAKE NOTICE".

(6) No area shall be excavated so as to cause the accumulation of free standing water except as part of the final plan approved by the Community Development Board and the Conservation Commission. Permanent drainage shall be provided as needed in accordance with good conservation practices. In the event that a serious ponding of water results from soil removal operation, the owner will consult with the Board for proper drainage or retention of the water.

(7) Trees and other ground cover should be removed before deeper excavations are begun. Care should be taken to remove any overhanging lip and maintain the slope at 1 to 1, during excavation.

(8) Frequent inspections and continual maintenance of erosion and sedimentation controls should be performed. In the event the Board finds serious erosion taking place on any soil removal site, it shall have the power to order grading, seeding, mulching and planting. All necessary care should be taken to halt erosion. Such erosion prevention will be at the expense of the owner.

B. Any site where work is being done in accordance with this ordinance shall display a sign of one (1) square feet bearing the words "Methuen Soil Removal Board Permit Number ..." assigned to the project.

B. The following Restorational Standards are required:

B. In soil removal areas, ledge shall not be left exposed above the approved grade and boulders and all cleared trees, stumps, and brush shall be removed, shedded or completely buried and covered with a minimum of two (2) feet of soil.

C. No trees, stumps, or other material subject to decay shall be buried at an elevation below the maximum water table.

D. Following excavation and as soon as possible thereafter, ground levels and grades shall be established as shown on the completed topographical plan. Retained topsoil shall be spread to a minimum depth of four (4) inches. The entire area should be seeded, mulched, and cared for until a firm ground cover is established.

E. The owner shall be responsible for repair of any erosion damage and must make repairs whenever needed even after expiration of his permit and until the release of his bond.

C. A bond shall be required when the extent of the work is significant in the opinion of the Board. A bond shall be posted with the City Clerk and a covenant approved by the City Solicitor, with a penal sum and surety satisfactory to the said Board, conditional upon the faithful performance by the applicant of the conditions of the permit. Such bond shall not be less than One Thousand Dollars (\$1,000.00) per acre of working area; (i.e., any area in condition other than its natural state or reconditioned state in accordance with Sections III and IV of this ordinance).

D. When it has been determined by the Board that all general requirements under Section IV (B) have been met as well as any specific conditions which may have been imposed by the Board and when the permittee states in writing that the project is in every way complete, the Board will sign a conditional release. One (1) year from the date of conditional release, if no damage or deterioration to the finished project has developed, the Board shall sign a final release. If slumping, gullying, or other form of erosion appears at any time within the year following the conditional release, or if the ground cover fails to become established in any area, the permittee is responsible for repairs. Following repairs, the Board will sign another conditional release. Final release will be signed when no further damage appears one (1) year after the most recent conditional release and only then will the bond be released.

E. The owner must provide liability insurance protecting himself and all others in the event of an accident and the City of Methuen must be listed as co-insured and a certificate of said insurance must be provided to the Board before work can begin. Any person(s) or corporation(s) working under contractual agreements with the owner may also provide liability insurance.

Section V. Violations

A. Upon verbal or written notification of violation of any conditions of the permit or any section of this ordinance to any member of the Board or to the Inspector, such claim of violation shall be immediately investigated by a member of the Board or the Inspector. If, in the opinion of the member or Inspector, this or any other violation has been committed, said member or Inspector shall be obligated and empowered to issue a Request for Compliance to the violation.

B. The Board may, upon finding a violation and if the violation continues after the issuance of a Request for Compliance, issue a Cease and Desist to order immediate termination of the soil removal activity, and a public hearing will be held.

C. The Board shall, after due hearing and proof of violation of any term of the permit or this ordinance, revoke the permit. If said violation involves removal of material from the premises, all material shall be returned to proper grade or the penalties defined in Section I of this ordinance shall be levied.

D. If said infraction involves violation of the natural buffer areas, material and loam shall be replaced to the natural buffer areas, and the trees destroyed shall be replaced with suitable trees of the size, type and spacing approved by the Board.

E. If all corrections cannot or are not made within a reasonable time stipulated by the Board, the bond will be forfeited and the penal sum provided therein paid to the City of Methuen to be used to restore the property as required by this ordinance.

F. Any person who purchases, inherits, or otherwise acquires real estate upon which work has been done in violation of any permit issued hereunder shall forthwith comply with any requirement or restore such real estate to its condition prior to any such violation.

(4) Any excavation which comes under the term of public use, such as cemeteries, road constructions, and maintenance of water, sewer, septic systems, gas, electric or telephone facilities.

B. At any time that the Board determines that the soil removal is not only for purposes A., 1 through 4 above, the Board shall require that an application for a permit be filed under this ordinance before any further removal of earth is allowed.

C. When said permit involves proposed soil removal area of less than one (1) acre and also the removal of less than five hundred (500) cubic yards of soil, the Board may waive the requirements of Section III, A, 3 and 4, and Section IV, C.

D. In the event of serious erosion and/or danger to public safety, any such exempt operation may be declared no longer exempt by the Board and shall be required to obtain a permit before further work is done and/or to correct any existing violations under this ordinance.

CHAPTER 21 - FAIR HOUSING

Section 21-1. Finding of the City Council

The practice of discrimination against individuals is a matter of grave public concern. Such discrimination foments domestic strife and unrest, threatens the rights and privileges of our people and undermines the foundations of a free democratic state. Section 21-2. Public Policy

It is hereby declared to be the public policy of the City of Methuen to foster the equal opportunities of all individuals in the City in accordance with their fullest capacities and abilities, regardless of their race, color, sex, national origin, religion, age, marital status, political affiliation, mental and/or physical handicap, whether the individual receives public assistance,

and because of he/she has a child or children and to safeguard their right to be free from such discrimination in housing.

2. To discriminate or to directly or indirectly refuse to sell, rent, lease, let or otherwise deny to or withhold from any individual, such housing accommodation because of race, color, sex, national origin, religion, age, marital status, political affiliation, mental and/or physical handicap or if there is a child or children in the family or because the individual receives public assistance;

3. To discriminate or to directly or indirectly cause to be printed or published, circulated, broadcasted, issued, used, displayed, posted, or mailed any written, printed or painted or oral communication, notice or advertisement relating to the sale, rental, lease or let of such housing accommodation which, indicates any specification, qualification, or discrimination, based upon race, color, sex, national origin, age, marital status, political affiliation, mental and/or physical handicap or if there is a child or children in the family or whether the individual receives public assistance.

4. To directly or indirectly discriminate against any person because of his or her race, color, sex, national origin, religion, age, marital status, political affiliation, mental and/or physical handicap or if there is a child or children in the family or because the individual receives public assistance, in the terms, conditions, or privileges of the sale, rental, lease, or let of any such housing accommodation or in the furnishing of facilities or services in connection therewith.

B. For any person to whom application is made for a loan or other form of financial assistance for the acquisition, construction, rehabilitation, repair or maintenance of any housing accommodation, whether secured or unsecured;

1. To discriminate or to directly or indirectly make or cause to be made any written or oral inquiry concerning the race or color, sex, national origin, religion, age, marital status, political affiliation, mental and/or physical handicap or if there is a child or children in the family, of anyone seeking such financial assistance, or of existing or prospective occupants or tenants of such housing accommodation, nor shall any such person to whom such application is made, directly or indirectly discriminate in the terms, conditions or privileges relating to the obtaining or use of any such financial assistance against any applicant because of the race, color, sex, national origin, religion, age, marital status, political affiliation, mental and/or physical handicap or if there is a child or children in the family or whether the individual receives public assistance of such applicant or of the existing or prospective occupants or tenants thereof;

2. To discriminate or to directly or indirectly deny or limit such application for financial assistance on the basis of any appraiser's, whether independent or not, evaluation of the property or neighborhood under consideration, when such evaluation is based on discriminatory criteria.

C. For any person, agent, firm, corporation or association whether or not acting for monetary gain, to directly or indirectly induce, attempt to induce, prevent or attempt to prevent the sale, purchase, rental, or letting of any housing accommodation by:

D. Except where based on a valid affirmative action program or record keeping or reporting requirements:

1. For any person, agent, manager, owner, or developer of any apartment or housing unit, complex, or development, whether commercial or residential to directly or indirectly make or keep a record of any applicant's, prospective owner's or tenant's race, color, sex, national origin, religion, age, marital status, political affiliation, mental and/ or

E. For any person to discriminate in any manner against any individual or to retaliate against such individual because he or she has opposed any practice forbidden by this ordinance or because he or she has made a charge, testified, or assisted in any manner in any investigation, proceeding, or hearing under this ordinance.

F. For any person, whether or not acting for monetary gain, to aid, abet, incite, compel or coerce the doing of any act declared by this section to be an unlawful housing practice, or to obstruct or prevent any person from complying with the provision of this ordinance or any regulations or order issued thereunder, or to attempt directly or indirectly to commit any act declared by this section to be an unlawful housing practice.

G. Nothing contained in this section shall be construed to prevent the operation or establishment of housing facilities designed for the exclusive use of the aged or elderly and/or handicapped, nor to prohibit the establishment of programs assigned to meet the needs or circumstances of handicapped persons.

Section 21-5. Enforcement: Complaints and Grievances

The City of Methuen Affirmative Action Officer shall be designated by the Mayor to advise citizens of their rights under this ordinance and to refer cases of possible discrimination to the Massachusetts Commission Against Discrimination.

The above-mentioned provision, however, does not preclude the injured citizen from filing his/her complaint directly with the Massachusetts Commission Against Discrimination.

Section 21-6. Severability

If any provision or section of this ordinance shall be held to be invalid, then such provision or section shall be considered separately and apart from the remaining provisions or sections of this ordinance, which shall remain in full force and effect.

"Local organization for civil defense" shall mean an organization created in accordance with the provisions of Chapter 639 of the Acts and Resolves of 1950 and this ordinance to perform local emergency service functions.

Section 22-2. Declaration of States of Emergency

Because of the existing possibility of the occurrence of disasters of unprecedented size and destructiveness resulting from natural occurrences, such as floods, blizzards, fire or earthquakes, in order to insure that the preparations of the City will be adequate to deal with such disasters, and generally to provide for and protect the public peace, health, security and safety, and to preserve the lives and property of the people of the City, the Mayor is hereby authorized to declare "states of emergency" which are caused by natural disasters and such states of emergency may apply to the City or selected portions thereof.

Such declaration, when issued, shall be in writing and (1) recorded with the City Clerk, and (2) communicated to the media for distribution to the citizenry.

Whenever the Mayor has proclaimed the existence of such a state of emergency, he may employ every agency and all the Departments and divisions of the City to protect the lives and property of its citizens and to enforce the law.

After the proclamation has been made in the event of a disaster, the Mayor may:

- (a) Impose a curfew under Chapter 40, Section 37A, Massachusetts General Laws.
- (b) Prohibit establishments licensed under Chapter 138, Massachusetts General Laws, to sell, give away or deliver any alcoholic beverages on the licensed premises for a period not exceeding three days at any one time under this ordinance and Chapter 138, Section 68, Massachusetts General Laws.
- (c) Seek and secure the aid and assistance of all available county, state and federal authorities in protecting the public safety and health.
- (d) Order all or any portions of the public ways of the City closed to all but public safety vehicles, and in conjunction therewith, to cause to be removed any persons or vehicles or property on said public ways in violation of such closing; the cost of which to be borne by the individual property owners.

This section, however, shall not apply to the City Council and their staff while proceeding to or returning from a duly called Council meeting.

- (e) Order evacuated, in conjunction with the Building Commissioner and/or the Board of Survey, all properties in the City of Methuen under this ordinance and Chapter 143, Massachusetts General Laws, and 780 CMR, Section 124 et seq.

(f) In conjunction with the Building Commissioner, have right of entry to any building, structure, or premises in the municipality to protect the public safety.

(g) Use and make use of public buildings, excepting Sanborn Hall, to house and shelter any citizens evacuated from their properties.

(h) Take any action reasonably necessary to protect the public safety.

Section 22-3. Cooperation with Federal and State Authorities

The Mayor shall have the power and authority to cooperate with state and federal authorities in matters pertaining to the common welfare, and also so to cooperate with the military forces of the United States and of the state, and to take any measures which he may deem proper to carry into effect any request of the President of the United States or the Governor of the Commonwealth for action looking to the public safety.

Section 22-4. Authority and Responsibility of the City

During the effective period of so much of this ordinance as is contingent upon the declaration of a state of emergency as hereinbefore set forth, the Mayor, in addition to any other authority vested in him by law, shall have and may exercise any and all authority over persons and property, necessary or expedient for meeting said state of emergency, which the City Council, in the exercise of its authority, may confer upon him, and specifically, but without limiting the generality of the foregoing, the Mayor shall have and may exercise such authority relative to any of the following:

(a) Health and/or safety of all citizens and individuals within the territorial limits of the City.

(b) Maintenance, extension or interconnection of services of public utility or public service companies, including public utility services owned or operated by the City.

(c) Policing, protection or preservation of all property, public or private, by the owner or person in control thereof, or otherwise.

(d) Assemblages, parades or pedestrian travel, in order to protect the physical safety of persons or property.

(e) Regulation of the manner and method of purchasing or contracting for supplies, equipment or other property or personal or other services, and of contracting for or carrying out public works, for the City or any of its agencies or political subdivisions.

(f) Receipt, handling or allocation of supplies, equipment or material granted, loaned, or allocated by the state or federal government to the City.

Section 22-5. Issuance of Executive Orders

The Mayor may exercise any power, authority or discretion conferred on him by any provision of this ordinance pertaining to such section as requires preparation in anticipation of a declaration of a state of emergency by the issuance or promulgation of executive orders or general regulations, or through such department or agency of the City, including the local organization for civil defense. Any department, agency or person so directed shall act in conformity with any regulations prescribed by the Mayor for its or his conduct.

Section 22-6. Appointment of Volunteers

The Mayor may appoint, train and equip unpaid volunteer aid and may establish and equip such other volunteer, unpaid public protection units as may be approved by said civil defense agency under Chapter 639 of the Acts and Resolves of 1950, and may appoint and train their members.

Section 22-7. Establishment of Civil Defense Agency

There is hereby established under this ordinance and Chapter 639 of the Acts and Resolves of 1950, a local organization for civil defense in accordance with the state civil defense plan and program.

The organization for civil defense shall have a director, who shall be appointed by the Mayor and subject to confirmation by the City Council, who shall have direct responsibility for the organization, administration and operation of such local organization for civil defense, subject to the direction and control of such appointment authority. The local organization for civil defense shall perform civil defense functions within the territorial limits of the City, and, in addition, shall conduct such functions outside of such territorial limits as may be required pursuant to the provisions of Section 7 of Chapter 639 of the Acts and Resolves of 1950.

In carrying out the provisions of this ordinance and Chapter 639 of the Acts and Resolves of 1950 in which any disaster as described in Section 1 of Chapter 639 occurs, the Mayor shall have the power to enter into contracts and incur obligations necessary to combat such disaster, protecting the health and safety of persons and property, and providing emergency assistance to the victims of such disaster. The Mayor is authorized to exercise the powers vested under this ordinance and Chapter 639 of the Acts and Resolves of 1950 in the light of the exigencies of the extreme emergency situation, without regard to time-consuming procedures and formalities prescribed by law, excepting mandatory constitutional requirements, pertaining to the performance of public works, entering into contracts, the incurring of obligations, the employment of temporary workers, the rental of equipment, the purchase of supplies and materials, the levying of taxes and the appropriation and expenditure of public funds.

Section 22-8. Authority of Local Civil Defense

The Director of the local organization for civil defense may, in collaboration with other public and private agencies within the Commonwealth, develop or cause to be developed mutual aid arrangements for reciprocal emergency defense aid and assistance in case of disaster

too great to be dealt with unassisted. Such arrangements shall be consistent with the state civil defense plan and program, and in time of emergency, it shall be the duty of the local organization for civil defense to render assistance in accordance with the provisions of such mutual aid arrangements. The Director of the local organization for civil defense may, subject to the approval of the Mayor, enter into mutual aid arrangements with civil defense agencies or organizations in other states for reciprocal civil defense aid and assistance in case of disaster too great to be dealt with unassisted.

Section 22-9. Appropriations

The City Council shall have the power to make appropriations in the manner provided by law for making appropriations for the ordinary expenses of such City for the payment of expenses of its local organization for civil defense.

Whenever the federal or state government or any agency or officer thereof, or any person, firm, or corporation shall offer to the City services, equipment, supplies, materials or funds by way of gift, grant or loan, for purposes of civil defense, the City, acting through its Mayor, may accept such offer, and upon acceptance, the Mayor may authorize any officer of the City to receive such services, equipment, supplies, materials or funds on behalf of the City, or such political subdivision, and subject to the terms of the offer and the rules and regulations, if any, of the agency making the offer.

Section 22-10. Utilization of Local Forces

In carrying out the provisions of this ordinance the Mayor is directed to utilize the services, equipment, supplies and facilities of existing departments, offices and agencies of the City to the maximum extent practicable.

The Mayor may assign to a City agency any activity concerned with disaster preparedness and relief of a nature related to the existing powers and duties of such agency, and it shall thereupon become the duty of such agency to undertake and carry out such activity on behalf of the City.

Section 22-11. City Council Authority

Upon the issuance of the state of emergency by the Mayor, he/she shall forthwith cause to be served upon the Chairman of the City Council a copy of such proclamation.

The City Council, acting hereunder, may call a meeting and thereat, rescind, repeal or modify such declaration as it believes is in the best interests of the public safety and health.

Section 22-12. Severability

If any provision of this ordinance or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or application of the

ordinance which can be given effect without the invalid provision of application; and to this end, the provisions of this ordinance are declared to be severable.

CHAPTER 23 - AN ORDINANCE REGULATING DOGS

Section 23-1. Definitions

The definitions of "adoption", "commissioner", "director", "dog fund", "Animal Control Officer", "keeper", "kennel", "license period", "livestock or fowl", "research institution", and "shelter", as provided for in Chapter 140, Section 136A, Massachusetts General Laws, are incorporated herein as part of this ordinance.

Section 23-2. Registration and Licenses

A person who, at the commencement of a license period, is, or who, during any license period, becomes the owner or keeper of a dog six months old or over which is not duly licensed, and the owner or keeper of a dog when it becomes six months old during a license period, shall cause it to be registered, numbered, described and licensed until the end of such license period, and the owner or keeper of a dog so registered, numbered, described and licensed during any license period, in order to own or keep such dog after the beginning of the succeeding license period, shall, before the beginning thereof, cause it to be registered, numbered, described and licensed for such period. The registering, numbering, describing and licensing of a dog shall be kept in the office of the City Clerk.

The City Clerk shall not grant such license for any dog unless the owner thereof provides such City Clerk either a veterinarian's certification that such dog has been vaccinated in accordance with the provisions of Section 14, or has been certified exempt from such provision as hereinafter provided, or a notarized letter from a veterinarian that a certification was issued or a metal rabies tag bearing an expiration date indicating that such certification is still in effect.

A dog licensing official may grant an exemption from the provisions of Section 14 for any dog which has not yet attained the age of six months, any dog which the Board of Health, for a specified period of time, declared exempt upon presentation of a veterinarian's certificate stating that because of an infirmity, other physical condition or regimen of therapy, that inoculation is thereby deemed inadvisable, or any dog in transit, or dog brought into the Commonwealth temporarily for the sole purpose of showing in dog shows or exhibition.

The license shall be in a form prescribed by the City Clerk and shall be subject to the condition expressed therein that the dog which is the subject of the license shall be controlled and restrained from killing, chasing or harassing livestock or fowls. The owner of any dog may add descriptive words, not over ten in number, upon the license form to indicate the color, breed, weight and special markings of the licensed dog. The owner or keeper of a licensed dog shall cause it to wear around its neck or body a collar or harness of leather or other suitable material, to

which shall be securely attached a tag in a form prescribed by the City Clerk, and upon which shall appear the license number, the name of the City and the year of issue. Such tags shall be furnished in the same manner as the license blanks, and if any such tag shall be lost, the owner or keeper of such dog shall forthwith secure a substitute tag from the City Clerk. This section shall not apply to a person having a kennel license.

Section 23-3. Kennel Licenses

Every person maintaining a kennel shall have a kennel license. Any owner or keeper of less than four dogs, three months old or over, who does not maintain a kennel may select to secure a kennel license in lieu of licensing such dogs under Section 2, and during such time as he/she does not license such dogs thereunder, shall have a kennel license and shall be subject to this section and to Sections 4 and 5 and to so much of Section 11 as relates to violations of this section, Section 4 and Section 5, to the same extent as though he/she were maintaining a kennel; all references being to Chapter 140, Massachusetts General Laws. Kennel licenses under this section shall be issued by the City Clerk.

Such license shall be in a form prescribed by the City Clerk. Such license shall be in lieu of any other license for any dog while kept at such kennel during any portion of the period for which such kennel license is issued. The holder of a license for a kennel shall cause each dog kept therein to wear, while it is at large, a collar or harness of leather or other suitable material, to which shall be securely attached a tag upon which shall appear the number of such kennel license, the name of the City and the year of issue. Such tags shall be in a form prescribed by the City Clerk and shall be furnished to such owner or keeper by the City Clerk in quantities not less than the number of dogs kept in such kennel. The fee for each license for a kennel shall be Ten Dollars (\$10.00) if not more than four dogs are kept in said kennel, Twenty-Five Dollars (\$25.00) if more than four but not more than ten dogs are kept therein, and Fifty Dollars (\$50.00) if more than ten dogs are kept therein; provided, that, for the purpose of determining the amount of such fee for any kennel, dogs under the age of six months shall not be counted in the number of dogs kept therein. The name and address of the owner of each dog kept in any kennel, if other than the person maintaining the kennel, shall be kept on file thereat and available to inspection by any Animal Control Officer, natural resource officer, deputy natural resource officer, fish and game warden, or police officer.

The City Clerk shall, upon application, issue, without charge, a kennel license to any domestic charitable corporation incorporated exclusively for the purpose of protecting animals from cruelty, neglect or abuse and for the relief of suffering among animals.

Any holder of a license for a kennel in the City may remove his/her kennel to a location in any other City in Essex County, with the written approval of such new location of the mayor or selectmen of the City to which he/she removes his/her kennel. Before such removal, he/she shall deliver to the Clerk of the City into which he/she intends to remove his/her kennel the written approval of the mayor or selectmen thereof and his/her original license, and the Clerk shall thereupon, on payment of a fee, issue to him a new license covering the new location for the balance of the period of the original license.

Section 23-4. Sale or Other Delivery of Unlicensed Dog by Kennel Licensee

Every holder of a kennel license, on delivering an unlicensed dog to a purchaser or to any other person, shall attach to such dog a collar or harness which shall carry a tag marked with the name and address of such kennel license, and a number, which number shall be properly recorded on the records of such licensee, and shall also furnish to the person to whom the dog is delivered a certificate bearing the same number and a description of the dog. Such certificate shall bear the date of purchase, exchange or gift and, with the tag, shall, for a period of two weeks following such date, be a legal substitute for a license. The purchaser or other recipient of a dog shall, within two weeks of the purchase or receipt of such dog, either return the same to the licensee from whom it was received, together with the collar or harness, tag and certificate, or return to such licensee said tag, and a certificate signed by the Clerk of the City where the dog is to be kept and certifying that the dog has been licensed in the name of such purchaser or recipient or of some other person. If any such purchaser or recipient fails to comply with the preceding sentence, such licensee shall notify the City Clerk of the purchase, exchange or gift of such dog and shall furnish to such Clerk the date thereof, and the name and address of the purchaser or recipient.

Section 23-5. Inspection of Kennels; Revocation, Suspension and Reinstatement of License; Nuisance

The Chief of Police or the Animal Control Officer may at any time inspect or cause to be inspected any kennel and if, in their or his/her judgment, the same is not being maintained in a sanitary and humane manner, or if records are not properly kept as required by law, the City Clerk shall by order revoke or suspend, and in case of suspension, may reinstate such license. Upon the petition of twenty-five citizens, filed with the Mayor, setting forth that they are aggrieved or annoyed to an unreasonable extent, by one or more dogs at a kennel maintained in the City because of the excessive barking or vicious disposition of said dogs or other conditions connected with such kennel constituting a public nuisance, said Mayor, within seven days after the filing of such petition, shall give notice to all parties in interest of a public hearing to be held within fourteen days after the date of such notice. Within seven days after such public hearing, said Mayor shall make an order either revoking or suspending such kennel license or otherwise regulating said kennel, or dismissing said petition. Written notice of any order under this section, revoking, suspending or reinstating a license shall be mailed forthwith to the City Clerk and to the holder of such license. Within ten days after such order, the holder of such license may bring a petition in the district court within the judicial district of which such kennel is maintained, addressed to the justice of the court, praying that the order may be reviewed by the court, and, after such notice to the officer or officers involved as the court may deem necessary, it shall review such action, hear the witnesses and affirm such order unless it shall appear that it was made without proper cause or in bad faith, in which case such order shall be reversed. The decision of the court shall be final and conclusive upon the parties. Any person maintaining a kennel after the license therefore has been so revoked, or while such license is so suspended, shall be punished by a fine of not more than Fifty Dollars (\$50.00) for each day or part thereof they remain in violation; each day or part thereof constituting a new offense.

Section 23-6. Licensee Convicted of Violation of Statutes Relating to Offenses Against Animals

Unless otherwise specifically provided by law, every license and tag issued under the provisions of Sections 137 and 137A of Chapter 140, Massachusetts General Laws, or this ordinance relative to the licensing of dogs made under the authority of this Chapter, held by any person found guilty of, or penalized in any manner for, a violation of any provision of Sections 77, 80A, 94 or 95 of Chapter 272, Massachusetts General Laws, shall be void, and shall immediately be surrendered to the authority issuing such license and tag.

The Clerk of the court in whose jurisdiction such finding has been made shall notify the City Clerk.

No person shall be given a license and tag under authority of this ordinance or Sections 137 and 137A of Chapter 140, Massachusetts General Laws, during a period of two years from the date of his/her being found guilty or penalized as aforesaid, and any such license and tag so issued shall be void and shall be surrendered on demand of any authority granting such license and tag. No fee received for a license and tag made void under this section shall be refunded to the holder thereof.

Section 23-7. Change of Owner or Keeper of Licensed Dog; Dog Brought Into Methuen

A person who, during any license period, becomes the owner or keeper of a dog which is duly licensed in the City shall forthwith give notice, in writing, to the City Clerk that he/she has become such owner or keeper and said City Clerk shall change the record of such license to show the name and address of the new owner or keeper. Any person bringing or causing to be brought from another municipality any dog licensed under the laws thereof which is three months old or over or will be three months old before the expiration of thirty days therefrom shall, on or before the expiration of thirty days following the arrival of such dog within the City, cause such to be registered, numbered, described and licensed for the remainder of the then current license period.

Section 23-8. Importation of Dogs and Cats for Commercial Resale; Health Certificates; Violations

All dogs or cats brought or shipped into the City for commercial resale shall be inoculated against distemper not more than thirty nor less than seven days before entry and shall be accompanied by an official health certificate issued by an accredited veterinarian and a copy sent to the Commissioner of Agriculture. If such certificate is unavailable in the state of origin, then a similar examination and certification shall be made within fourteen days of the arrival of the animal in the City.

An official health certificate shall mean a legible certificate or form issued by an accredited veterinarian and approved by the chief livestock official of the state or county of origin, containing the names and addresses of the consignor and consignee, or in the case of

examination after entry into the Commonwealth, the name of the consignee. The certificate or form shall also show age, sex, breed and description of each dog or cat and that the dogs are free from visual evidence of communicable disease such as kennel cough, Infectious Tracheo-bronchitis, canine distemper, external and intestinal parasites, including coccidiosis, and that cats are free from external parasites, including ear mites, and intestinal parasites, distemper, feline panleukopenia, and feline respiratory infections and feline distemper.

Dogs or cats purchased within the City for resale by commercial establishments or pet shops shall be accompanied by a health certificate issued by an accredited veterinarian. The certificate shall show age, sex, breed, and description of each dog or cat and that the dogs are free from visual evidence of communicable diseases such as kennel cough, Infectious Tracheo-bronchitis, canine distemper, external and internal parasites, including coccidiosis, and that cats are free from external parasites, including ear mites, intestinal parasites, and feline respiratory infections and feline distemper.

No commercial establishment, pet shop, firm or corporation shall import into the City, for sale or resale in the Commonwealth, any cat or dog less than eight weeks of age.

All dogs or cats imported for resale shall be held in isolation by the importer for a period of five days prior to offering for sale.

All dogs or cats sold in the City by a commercial establishment, pet shop, firm or corporation shall be accompanied by a health record indicating dates and types of vaccine administered.

Whoever is convicted of a violation of any of these sections may be punished by a fine of not less than One Hundred Dollars (\$100.00) nor more than Three Hundred Dollars (\$300.00) for each such offense for each day or part thereof they remain in violation; each day or part thereof constituting a new offense. In addition thereto, or in lieu thereof, the City Clerk may, after notice and hearing, revoke or suspend a pet shop, kennel, and boarding kennel license providing any person, firm or corporation maintaining such pet shop, kennel and boarding kennel violates any of these regulations.

Any person, firm or corporation aggrieved by an order under this section may, by petition, appeal within thirty days to the superior court where said person resides, or where the firm or corporation is located. Such person shall, in substance, state the findings by the Clerk and the grounds of appeal and said court shall consider said proceedings de novo and the parties thereto shall have right of exception and appeal.

Nothing in this ordinance shall be construed to prohibit the temporary importation of dogs for racing or field trials or the temporary importation of dogs or cats for show purposes, nor shall it prohibit the importation of dogs and cats as pets by individual owners.

Section 23-9. Fees; Certificate or Statement That Dog Has Been Spayed; Dogs Serving Blind or Deaf Persons; Refunds

“The fee for every license shall, except as otherwise provided, be Fifteen Dollars (\$15.00) for a male dog, unless a certificate of a registered veterinarian who performed the operation neutering said dog and thereby depriving it of the power of propagation has been shown to the City Clerk, in which case the fee shall be Ten Dollars (\$10.00).

The fee for every license shall, except as otherwise provided, be Fifteen Dollars (\$15.00) for a female dog, unless a certificate of a registered veterinarian who performed the operation spaying said dog and thereby depriving it of the power of propagation has been shown to the City Clerk, in which case the fee shall be Ten Dollars (\$10.00).”

If the City Clerk is satisfied that the certificate of the veterinarian who spayed the dog cannot be obtained, he/she may accept in lieu thereof a statement signed under the penalties of perjury by a veterinarian registered and practicing in the Commonwealth, describing the dog and stating that he/she has examined such dog and that it appears to have been, and in his/her opinion has been, spayed and thereby deprived of the power of propagation or a receipt of a bill from the veterinarian who performed the operation that spayed such female dog. No fee shall be charged for a license for a dog specially trained to lead or serve a blind person; provided, that the Massachusetts Commission for the Blind certifies that such dog is so trained and actually in the service of a blind person. No fee shall be charged for a license for a dog professionally trained in the hearing dog business to serve a deaf person; provided, that the Director of the Office of Deafness certifies that such dog is so trained and actually in the service of the deaf person. No license fee or part thereof shall be refunded because of the subsequent death, loss, spaying or removal from the City, or other disposal, of the dog, nor shall any license fee or part thereof paid by mistake be paid or recovered back after it has been paid over to the City.

(Amended by Ord. #523, Eff. December 21st, 1994; as further Amended by Ord. #753, Eff. July 1, 2003)

The shelter may make appropriate arrangements for the spaying or neutering of such dog or cat by a licensed veterinarian, or may return the deposit to the person purchasing or receiving the dog or cat upon presentation of a written statement or receipt from a veterinarian or clinic that the dog or cat has been spayed or neutered by a licensed veterinarian.

If the dog as to which such violation occurs was unlicensed at the time of such violation, the court shall impose the forfeiture provided herein.

(a) Definition. A "dangerous dog" or "vicious dog", as used in this section, shall mean:

(1) Any dog that has bitten or attacked any person or has attempted to bite or attack any person. (2) Any dog with a propensity, tendency or disposition to attack, to cause injury to, or to otherwise threaten the safety of domestic animals; or any dog which attacks a human being or domestic animal on two or more occasions without provocation and without justification; or

(b) Exceptions where dog shall not be considered dangerous or vicious:

1. A human being who, at the time the injury was sustained, was committing criminal trespass or other tort upon premises occupied by the owner of the dog, or tormenting, abusing or assaulting the dog, or was committing or attempting to commit a crime.

2. A domestic animal, which, at the time the injury was sustained, was tormenting, abusing or assaulting the dog.

If it has no bottom secured to the sides, the sides must be imbedded into the ground no less than two (2) feet. The enclosure must also provide protection from the elements for the dog. Animal Control Officer shall verify compliance with this section by an on-site inspection and, if necessary, shall require Owner to further secure structure.

In addition, the owner shall conspicuously display a sign with a symbol warning children who cannot read of the presence of a dangerous dog.

A dangerous dog may be off the owner's premises if it is muzzled and restrained by an approved lead not exceeding four (4) feet in length and is under the control of an adult, able-bodied person. The muzzle must be made in a manner that will not cause injury to the dog or interfere with its vision or cause injury to the dog or interfere with its vision or respiration, but must prevent it from biting any person or animal.

(b) Indoor confinement. No vicious dog may be kept on a porch, patio, or in any part of a house or structure that would allow the dog to exit such building on its own volition. In addition, no such animal may be kept in a house or structure when the windows are open or when screen windows or screen doors are the only obstacles preventing the dog from exiting the structure.

(c) Insurance. The owner or custodian of any vicious dog shall maintain a policy of insurance in an amount not less than \$100,000 per incident insuring such person against any claim, loss damage, or injury to humans being resulting from the acts of such dog. (c) Owners of dangerous or vicious dogs found within the City of Methuen and not properly registered shall be subject to a fine of fifty dollars (\$50.00). Said animal shall be forever banned from within the limits of the City unless the Owner within ten (10) days of said finding registers said dog.

forwarded to the City Clerk for filing and such dog shall not be re-registered in the City unless the owner is in full compliance with this ordinance.

(f) Compliance with the requirements of this section shall not be a defense to an order of disposal of a vicious dog pursuant to Massachusetts General Laws Chapter 140, Section 157.

(g) All notice and hearing procedures will be carried out in conformance with Massachusetts General Laws, Chapter 140, Section 157.

(h) Owners of all potentially dangerous dogs or dogs previously designated as potentially dangerous who re-locate or move to the City of Methuen from another community shall notify the Animal Control Officer and Advisory Committee of a description of such dog and said designation. Such action may be brought in his/her own name and in the county where he/she resides, and he/she shall prosecute it. The persons so appointed shall also have, throughout their respective counties, the same powers and authority as police officers, constables or dog officers appointed under provisions of Section 19, acting under Sections 2 et seq. All damages received or recovered under this section shall be paid over to the Treasurer and placed to the credit of the dog fund. If the owner thereof claims such dog and pays to such officer or constable the sum of Five Dollars (\$5.00), together with One Dollar and Fifty Cents (\$1.50) for each day that it is so held, it shall be returned to the owner. The fee of Five Dollars (\$5.00) shall be paid over to the City and the remaining moneys shall be retained by such officer or constable as his/her fee.

Section 23-39. Order to Muzzle or Restrain Dogs

Upon complaints against a dog amounting to repeated threatening acts of aggression, reported dog bites to humans and/or attacks to other animals (domestic, livestock or wild), the following provisions of this section shall be enforced.

Such payment shall be made only by postal note, money order or check.

All members shall serve without compensation, and, subject to available funding, shall be entitled for reimbursement of expenses incurred while attending to Commission business out of town. The expense limit shall be set by the normal budgetary process and requested through the budget of the Office of Economic and Community Development. Section 24-6. Duties and Power of the Commission

The Commission shall have all the powers and duties of Historic District Commissions as provided by the Historic Districts Act, General Laws, Chapter 40C, and of subsequent amendments thereto unless specifically limited by this ordinance.

(A) Rules and Regulations: the Commission shall adopt rules and regulations not inconsistent with the provisions of the Historic Districts Act.

(B) The Commission may, subject to appropriation and with the approval of the Mayor, employ clerical and technical assistants or consultants and incur other expenses appropriate to the carrying on of its work.

(C) The Commission may receive and accept appropriations, grants and gifts, including real estate and property, for the furthering of the purposes of this ordinance.

(D) General regulatory powers: the Commission shall have control over new construction, reconstructions, alterations, movements, and demolitions of all exterior architectural features of buildings and structures within the district which are visible from any public street, public way, public park, or public waterway within the district, except as limited by the ordinance. For purposes of this ordinance, any structure partially within the district shall be considered wholly within the district.

(E) Signs: the Commission shall approve the placement of permanent or temporary signs on or about any building or building site within the district. Note that all provisions of the Methuen Zoning Ordinance relating to signs must first be followed. The Commission's primary interest in reviewing signs is to pass on the appropriateness of their placement, design, size, color, and execution.

The Commission shall within its rules and regulations establish guidelines to review every sign for appropriateness in the context of its immediate environment. Signs erected or put into place prior to the effective date of the establishment of the district shall be exempt from the Commission's control; new signs to be erected as replacements for older ones after the establishment of the district shall be under the Commission's control and should conform to its guidelines.

(F) Considerations: in passing upon matters before it, the Commission shall consider, among other things, the historic and architectural significance of the site, building or structure, the general design arrangement of the features involved, and the relationship of such features to similar features of buildings and structures in the surrounding area. In the case of new construction or additions to existing buildings or structures, the Commission shall consider the appropriateness of the size and shape of the building or structure both in relation to the land area upon which the building or structure is situated and to buildings and structures in the vicinity, and the Commission may, in appropriate cases, impose dimensional and set-back requirements in addition to those required by the applicable zoning ordinance.

(G) The Commission may determine from time to time, after public hearing, that certain categories of exterior architectural features, structures or signs may be constructed or altered without review by the Commission. The

Commission may after public hearing, set forth the various designs of certain appurtenances, such as light fixtures, which will meet the requirements of the district but no such determination shall limit the right of the applicant to present other designs to the Commission for its approval.

Section 24-7. Limitations and Exemptions

(A) The Commission shall not make any recommendation or requirement with regard to new construction, reconstruction or additions except for purpose of preventing developments incongruous to the historic aspects of architectural characteristics of the surroundings and of the district.

(B) The following are exempt from the control of the Commission:

1. Ordinary maintenance and repair of any exterior architectural feature if such repair and maintenance does not involve a fundamental change in design and materials
2. Any constructions, demolitions or alterations under a permit issued by the Building Inspector or similar agent prior to the effective date of the establishment of the district.
3. Any constructions, demolitions or alterations under orders issued by the Building Inspector or similar agent for the purpose of public safety.
4. Landscaping with plants, trees or shrubs.

6. Storm doors and windows, screen doors and windows, air conditioners.
7. A reconstruction substantially similar in exterior design of the building, structure or exterior architectural feature damaged or destroyed by fire, storm, or other disaster providing that such reconstruction is begun within one year thereafter and carried forward with due diligence.
8. Traffic control devices necessary for public safety including, but not limited to, traffic signs and lights, guardrails and pedestrian crosswalks.

Section 24-8. Procedures

(A) Except as this ordinance provides in sections 6 and 7, no building or structure within the district shall be constructed or altered in any way that affects the exterior architectural features unless the Commission shall first have issued a Certificate of Appropriateness, a Certificate of Non-Applicability or a Certificate of Hardship with respect to such construction or alteration. Nor shall any building permit for demolition be issued for any

building or structure within the district until the Commission has issued a certificate required by this section.

(B) The applicant shall file a copy of one application for a certificate with the Building Inspector and one with the City Clerk. As many additional copies as deemed appropriate by the Rules and Regulations of the Commission shall be filed with the Commission. Applications shall be in the form specified by the Commission, to include plans and elevations signed by an architect or draftsman, drawn to scale detailed enough to show architectural design of the structure and its relationship to existing buildings or structures, and other materials deemed necessary by the Commission. Plot and site plans should be filed when applications for certificates are made for improvements affecting appearances of walls, fences, steps, and paving. In the case of demolition or removal, the application must include a statement of the proposed condition and appearance of the property thereafter. The Commission may charge an applicant a filing fee, at a rate it sets, for an application for a certificate it issues.

(C) Within 14 days of the filing of an application for certificate, the Commission shall determine whether the application involves any exterior architectural features, which are subject to the approval of the Commission.

(D) If the application requires the Commission's review, or at the request of the applicant, the Commission shall hold a public hearing, unless waived according to the provisions of the General Laws, Chapter 40C amended. Public notice of the time, place and purpose of the hearing shall be given at least 14 days in advance and the Commission must notify by mail affected parties as provided in the General Laws, Chapter 40C amended.

(E) The Commission shall decide upon the determination of any application within 60 days of its filing or within such further time as the applicant may allow in writing.

(F) A Certificate of Appropriateness shall be issued to the applicant if the Commission determines that the proposed construction or alteration will be appropriate or compatible with the preservation or protection of the district. In the case of a disapproval of an application for a Certificate of Appropriateness, the Commission shall place upon its records the reasons for such determination and shall forthwith cause a notice of its determination, accompanied by a copy of the reasons therefore as set forth in the records of the Commission, to be issued to the applicant, and the Commission may make recommendations to the applicant with respect to appropriateness of design. Prior to the issuance of any disapproval, the Commission may notify the applicant of its proposed action, accompanied by recommendations of changes in the applicant's proposal, which, if made, would make the application acceptable to the Commission. If within 14 days of receipt of such notice, the

applicant files written modification of his application in conformity with the recommended changes of the Commission, the Commission shall issue a Certificate of Appropriateness to the applicant.

(G) Upon request, the Commission may issue a Certificate of Non-Applicability to any applicant whose request does not require Commission approval.

(H) If an application is deemed inappropriate or if application is made for a Certificate of Hardship, the Commission may issue a Certificate of Hardship if conditions especially affecting the building or structure involved, but not affecting the district generally, would make failure to approve an application involve a substantial hardship, financial or otherwise, to the applicant, and approval would not involve a substantial detriment to the public welfare.

(I) A Certificate of Hardship shall also be issued in the event that the Commission does not make a determination on an application within the time specified in section 8E of this Ordinance

(J) Each certificate shall be dated and signed and the Commission shall keep a permanent record of its determinations and of the vote of each member participating therein, and shall file a copy or notice of certificates and determinations of disapproval with the City Clerk and Building Inspector.

(K) Any "person aggrieved" may, within 20 days of the decision by the Commission, appeal to a superior court sitting in equity. The Commission must pay costs only if it appears to the court that the Commission has acted with gross negligence, bad faith or malice.

(L) Should a property owner cause, suffer or permit the alteration or act in a fashion which appears to give the impression that he will so alter the structure, without a Certificate of Appropriateness or Hardship, the Commission may fine the owner not less than ten dollars nor more than five hundred dollars, each day constituting a separate offense and the Commission may commence an appropriate court action to prohibit such alteration.

Section 24-9. Provisions

The City of Methuen shall be subject to the provisions of this ordinance notwithstanding any city ordinance to the contrary.

Section 24-10. Amendments

This ordinance may be amended from time to time by a two-thirds vote of the City Council subject to the procedure as set forth in the General Laws, Chapter 40C, and section 3.

Section 24-11. Cases of Invalidity/Unconstitutionality

In case any section, paragraph or part of this ordinance is for any reason declared invalid or unconstitutional by any court of last resort, every other section, paragraph or part shall continue in full force and effect.

Section 24-12. Clarification of Position

It is recognized in this report that the Secretary of State's Office has taken the position that Ordinance #652 did not validly repeal Chapters 24 and 24A of the Methuen Municipal Code. This report and any record enacted hereunder is not intended to in any way impact the determination and decision of the Secretary of State and the Massachusetts Historical Commission on this issue.

Section 24-13. Requests for Review

Any person aggrieved by a determination of the Commission may, within twenty days after the filing of the notice of such determination with the City Clerk, file a written request with the Commission for a review by a person or persons of competence and experience in such matters, designated by the Merrimack Valley Planning Commission.

The finding of the person or persons making such review shall be filed with the City Clerk within forty-five days after the request, and shall be binding on the applicant and the Commission, unless a further appeal is sought in the Superior Court as provided in Chapter 40C, section twelve A.

The Mayor shall further annually, in January, choose the chairman thereof. The members shall be appointed by the Mayor on the basis of their education, training or knowledge of historic properties. Such appointments shall be subject to confirmation by the City Council.

Section 25-5 Procedure

1. The Commissioner shall forward a copy of each demolition permit application for all regulated buildings or structures identified in section (c) of this section to the Committee within seven (7) days after the filing of such application. No demolition permit shall be issued at that time.

2. Within thirty (30) days after the receipt of such application, the Committee shall determine whether the building or structure is historically significant. The applicant for the permit shall be entitled to make a presentation to the Committee if he or she makes a timely request in writing to the Committee.

3.
 - A. If the Committee determines that the building or structure is not historically significant, it shall so notify the Commissioner and the applicant in writing and the Commissioner may issue a demolition permit.

 - B. If the Committee determines that the building or structure is historically significant, it shall notify the Commissioner and the applicant in writing that a demolition plan review must be made prior to the issuance of a demolition permit. If the Committee fails to notify the Commissioner and the applicant of its determination within sixty (60) days after its receipt of the application, then the building or structure shall be deemed not historically significant and the Commissioner may issue a demolition permit.

4. Within thirty (30) days after the applicant is notified that the Committee has determined that a building or structure is historically significant, the applicant for the permit shall submit to the Committee seven (7) copies of a demolition plan which shall include the following information; (i) a map showing the location of the building or structure to be demolished with reference to lot lines and to neighboring buildings or structures; (ii) photographs of all street façade elevations; (iii) a description of the building or structure to be demolished; (iv) the reason for the proposed demolition and data supporting said reasons, including, where applicable, data sufficient to establish any economic justification for demolition; and (v) a brief description of the proposed reuse of the parcel on which the building or structure to be demolished is located.

5. The Committee shall hold a public hearing, within 30 days of receipt of the demolition plan, referenced in paragraph four, with respect to the application for a demolition permit, and shall give public notice of the time, place, and purposes thereof at least fourteen (14) days before said hearing in such manner as it may determine, and by mailing, postage prepaid, a copy of said notice to the applicant, to the owners of all adjoining property and other property deemed by the Committee to be materially affected thereby as they appear on the most recent real estate tax list of the Board of Assessors, to the Community Development Board, to any person filing written request for notice of hearings, such request to be renewed yearly in December, and to such other persons as the Committee shall deem entitled to notice. Within sixty (60) days after its receipt of the demolition plan, the Committee shall file a written report with the Commissioner on the demolition plan which shall include the following: (i) a description of age, architectural style, historic association and importance of the building or structure to be demolished; (ii) a determination as to whether or not the building or structure should preferably be preserved. The Committee shall determine that a building or structure should preferably be preserved only if it finds that the building or structure is an historically significant building or structure which, because of the important contribution made by such building or structure to the City's historical and/or architectural resources, it is in the public interest to preserve, rehabilitate or restore.

6. If, following the demolition plan review, the Committee does not determine that the building or structure should preferably be preserved, or if the Committee fails to file report with the Commissioner within the time limit set out in subparagraph (5) next above, then the Commissioner may issue a demolition permit.

7. If, following the demolition plan review, the Committee determines that the building or structure should preferably be preserved, then the Commissioner shall not issue a demolition permit for a period of six (6) months from the date of the filing of the Committee's report unless the Committee informs the Commissioner prior to the expiration of such six (6) month period that it is satisfied that the applicant for the demolition permit has made a bona fide, reasonable and unsuccessful effort to locate a purchaser for the building or structure who is willing to preserve, rehabilitate or restore the building or structure, or has agreed to accept a demolition permit on specific conditions approved by the Committee. During the six (6) month review period, the Committee shall invite the Applicant to participate in an investigation of alternatives to demolition.

Section 25-6 Determination of Applicability

An owner of a regulated building or structure may petition the Committee for a determination of applicability of the ordinance. Within sixty (60) days after the receipt of such application, the Committee determine whether the building or structure is historically significant. The applicant for the permit shall be entitled to make a presentation to the Committee if he or she makes a timely request in writing to the Committee. The determination by the Committee of whether a regulated building or structure is historically significant shall be made in writing signed by the Committee and shall be binding on the Committee for a period of 5 years from the date thereof.

Section 25-7. Emergency Demolition

If the condition of a building or structure poses a serious and imminent threat to public health or safety due to its deteriorated condition, the owner of such building or structure may request the issuance of an emergency demolition permit from the Commissioner. If possible, and as soon as practical, after the receipt of such a request, the Commissioner shall arrange to have the property inspected by a board consisting of himself, the Chairman of the Committee and the Chairman of the Board of Health, and the Chief of the Fire Department, or their respective designees. After inspection of the building or structure and, to the extent possible, consultation with this Board, the Commissioner shall determine whether the condition of the building or structure represents a serious and imminent threat to public health or safety and whether there is any reasonable alternative to immediate demolition of the building or structure which would protect the public health or safety. If the Commissioner finds that the condition of the building or structure poses a serious and imminent threat to public health or safety, and that there is no reasonable alternative to the immediate demolition permit under the provisions of this paragraph (f), they shall prepare a written report describing the condition of the building or structure and the basis for his decision to issue an emergency demolition permit with the Committee. Nothing in this paragraph (f) shall be inconsistent with the procedures for the demolition and/or securing of building and structures established by Chapter 143, section 6-10, of the Massachusetts General laws. In the event that a Board of Survey is convened under the provisions of Section 8 of said Chapter 143 with regard to any building or structure identified in paragraph (c) of this section, the Commissioner shall request the Chairman of the Committee or his designee to accompany that Board of Survey during its inspection. A copy of the written report prepared as a result of such inspection shall be filed with the Committee.

Section 25-8 Non-Compliance

1. The Committee and the Building Commissioner are each authorized to institute any and all proceedings in law or equity, as they deem necessary and appropriate to obtain compliance with the requirements of this bylaw, or to prevent a violation thereof.
2. No building permit shall be issued with respect to any premises upon which a significant building has been voluntarily demolished in violation of this bylaw for a period of twenty-two months after the date of the completion of such demolition. As used herein "premises" includes the parcel of land upon which the demolished significant building is located.

3. Upon a determination of the Committee that a building is a preferably-preserved significant building, the owner shall be responsible for properly securing the building, if vacant, to the satisfaction of the Building Commissioner. Should the owner fail to secure the building, the loss of such building through fire or other cause shall be considered voluntary demolition for the purposes of section H2.

4. Anyone who demolished a building or structure identified in paragraph (C) of this section without first obtaining, and complying fully with the provisions of, a demolition permit, shall be subject to a fine of not less than one hundred (500) dollars nor more than three hundred (1,000) dollars.

Section 25-9. Severability

If any section, paragraph or part of this bylaw be for any reason declared invalid or unconstitutional by a Court authority, every other section, paragraph and part shall continue in full force and effect.

CHAPTER 26 - DEVELOPERS WATCHLIST ORDINANCE

Section 26-1. Purposes

This ordinance is enacted for the purposes as outlined in this Section and with the goal of:

1. Insuring proper and appropriate development of the remaining land in Methuen;
2. To provide guidance as to inappropriate conduct in the development of land;
3. To determine those who might violate basic land development requirements;
4. To inform the public of those individuals who are violators of regulations of land use, and;
5. To affirm the support of the municipality for proper land use and development.

This ordinance recognizes that not every alleged violation related to land development may or should result in the imposition of the procedures outlined herein. This ordinance is enacted to deal with substantive derogations from the requirements imposed on subdivision, special permit, variance, site plan permits or approvals, orders of condition or determinations of applicability.

Section 26-2. Violations

The following conduct in the development of land is considered inconsistent with the policy of Methuen and shall subject the violator to public notice and action:

1. Violation of statute, ordinance, permit or conditions in the development of land requirements imposed under subdivision, special permit, variance and site plan permits or approvals, orders of condition or determinations of applicability;
2. Improper disturbing or destruction of environmentally sensitive areas such as wetlands;
3. Failure to comply with cease and desist orders issued as to the development;
4. Abandoning a development and failing to complete all board or commission requirements of said development.

Section 26-3. Policy

It shall be the policy of the City of Methuen to entertain an application by any Board or Commission of the community, any state or federal officials and any ten (10) or more “parties in interest” to determine whether an individual or entity in developing land has violated any provision of Section 2.

The term “parties in interest” shall mean;

- 1) ten or more lot owners in the affected subdivision where the subdivision has more than 15 lots,
- 2) a majority of the lot owners in the affected subdivision where the subdivision has 15 or less lots.
- 3) ten or more “parties in interest” as the term is defined in GL Chapter 40A Section 11.

Section 26-4. Procedure

The individuals or entities listed in section 3 above may file an application with the Department of Economic and Community Development to determine if a person in developing land in Methuen has violated this ordinance. Said application shall include the name or position of the person making the application, together with their address, the name of the person and/or corporation or other business entity, together with the address, allegedly committing the violation, and the date of the violation as may be applicable. In the instance where an application is filed, the applicant shall specify in detail the nature of the violation and the appropriate remedy, if known.

Section 26-5. Action Upon Receipt of Application

In the instance where an application is filed, the Director of Economic and Community Development shall forthwith notify the person or entity charged with the violation of the filing of the application and shall provide them ten (10) days to respond by remedying the violation, identifying why there is not a violation, or specifying an acceptable time line for the correction of the violation.

If the Director of Economic and Community Development is not satisfied with the response of the alleged violator, he or she shall establish a public hearing within thirty (30) days of the filing of the application with newspaper notice no less than seven days before the hearing as well as notice to the applicant and the alleged violator. The public hearing shall be conducted by a five member Review Board which shall consist of one member each from the; Conservation Commission, Zoning Board of Appeals, Community Development, Historic District Commission and Board of Health. The designee from these Boards shall be chosen by their Chairman. In the instance where a Board has filed the application, no person voting on the application may sit on this Review Board. Where a board is disqualified under this ordinance from sitting the replacement shall be chosen by the Mayor to sit for that hearing on the Review Board. The board shall be convened upon the call of the Economic and Community Development Director and shall as its first order of business be to choose a Chairman and establish its rules of proceedings.

At the public hearing, the Review Board shall entertain the application, together with the testimony of any member of the public or officer or employee of the City or a state or federal agency, and shall further entertain any testimony or information offered by the alleged violator or his representatives. Following the closing of the public hearing, the Review Board shall within ten (10) days determine whether or not there has been a violation, as identified in Section 2 hereof, committed by the person or entity and, if so, forward such determination to the Mayor for review. Unless the Mayor shall within seven (7) days of receipt of this determination

overturn such decision, it shall become final and binding. In the instance of a determination of violation, the Director of Economic and Community Development shall forthwith publish the findings of said Review Board, identifying the violator, the nature of the violation and the fact that said person/corporation is formally placed upon a Development Watch List. Said notification shall further; 1) be forwarded to all Boards charged with issuing permits, approvals or authorizations in the land development area, including, but not limited to, Conservation Commission, Zoning Board of Appeals, Historic District Commission and the Board of Health, 2) posted in the Building Commissioners office and 3) posted on the City's website. Additionally, a book of proceedings, including the application, the findings and all evidence from the hearing of the Review Board shall be submitted to the City Clerk. Said City Clerk shall post a notice of finding of violation and notify members of the public that they may review the book of proceedings in his or her office.

Section 26-6. Watch List Requirements

1. In the instance where a person is placed upon a Watch List, said individual may not obtain a subdivision approval, variance for subdividing land, site plan approval, special permit, order of conditions (municipal) or determination of applicability (municipal) without the posting of an adequate performance bond and unless otherwise provided in law, said bond shall be a cash bond.
2. In the instance when any person or entity is placed upon a Developer Watch List, each and every time said individual or entity files for such subdivision approval, variance for subdividing land, site plan approval, special permit, order of conditions (municipal) or determination of applicability (municipal) all land use permitting boards shall be notified and provided with a copy of the application. Additionally, the original applicants for the violation determination together with any other requesting parties shall receive a notice and copy of the application.
3. As to any person or entity on a watch list no bond release or reduction shall be granted or allowed prior to the holding of a public hearing. Such public hearing shall provide the opportunity to any interested party to comment publicly on the request to reduce the bond.
4. No approvals of completion of work, including Certificates of Compliance, Approvals of Subdivisions, or any historic authorizations may occur unless and until a notice is given to each Board involved in land development in Methuen, together with notice to the original applicant for the violation and any other party requesting notice. Said notice shall advise those individuals or entities of the day, date and place on which such acceptance, release or reduction may occur and advising the parties of their right to appear and object to such action.

Section 26-7. Parties Responsible

This Ordinance recognizes that as a common business practice a developer will create a corporation or other like entity that solely exists for a particular development. Said practice is commonly developed to shield an individual or individuals from liability or responsibility occurring from improper development. This Ordinance is specifically enacted to hold the business entities and the individuals responsible. Therefore, if the principal violator of this Ordinance was a corporation, then the provisions of this Ordinance shall nevertheless apply to

any person designated at the time of the violation by the corporation as its President, Vice President, Treasurer, Clerk, or Board of Director. This shall also apply to any stockholder of more than ten per cent of the stock and/or the designated or principal agent of the corporation or other entity unless such person can offer evidence at the hearing that said person did not have control of the corporate entity or the ability to require the entity to comply with the provisions of this Ordinance and specifically, with the conditions established in law for the development.

Section 26-8. Term

Any individual or entity placed upon a Watch List shall remain on said Watch List and be subject to the provisions of this ordinance for a period of five (5) years unless, after a duly called public hearing with notice to the original applicant for the violation, said Review Board shall reduce the term for good cause shown and the Mayor shall approve such reduction in term.

Section 26-9. Applicability

This ordinance shall apply to all future development and to all existing approvals, permits, orders or endorsements if the same have not been completed and the applicable acceptance or compliance certification has not issued.

Section 26-10. Definitions

As used herein the term “abandon” or “abandoning” shall mean the act of leaving incomplete a development willfully and without an intent to return.

SUMMARY OF CHARTERS IN THE CITY OF METHUEN

The City of Methuen was originally organized as a Town by Chapter 12 of the Acts and Resolves of 1725, "Being an act for dividing the City of Haverhill and erecting a new Town there and in parts adjacent by the name of Methuen"; the name of the Town being given by Governor Dummer after Lord Methuen.

- The City functioned under a Selectmen/Open Town Meeting form of government from 1726 until 1917.
- The General Court, by Chapter 116 of the Acts and Resolves of 1916, established a Selectmen/Representative Town Meeting form of government.
- The General Court, thereafter, by Chapter 289 of 1917, allowed the Town to organize as a City.
- On January 7th, 1921, the Supreme Judicial Court, in the case of Attorney General ex rel. Mann vs. City of Methuen, 236 Mass. 564, found that the City Charter had not been appropriately adopted under the Constitution of the Commonwealth. Though the Court did not strike down the Charter, it left open the legality of all City action thereafter.
- The General Court subsequently enacted Chapter 241 of 1921, providing for the establishment of a Selectmen/Representative Town Meeting form of government. This Charter existed from 1921 to 1973.
- On January 1st, 1973, Methuen's first Home Rule Charter became effective. Said Charter established a strong Town Administrator with a twenty-one member Town Council. Said Charter was written by the first Home Rule Charter Commission. This "Town Form" was declared to be, in law, a City by the Appeals Court on December 12th, 1978 in the case of Chadwick vs. Scarth, 6 Mass. App. 725.

- On January 1st, 1978, Methuen's second Home Rule Charter became effective. Said Charter, while keeping the Town Manager/Town Council form of government, reduced the Town Manager's power by requiring Council approval of such matters as contracts and appointments.
- On May 4th, 1993, at a Special Town Election, the citizens accepted Chapter 332 of the Acts and Resolves of 1992 providing for a Mayor and lifetime term limitations for the Mayor and City Council.

For a complete listing of all Charter amendments, see Chronology of Charter Amendments, (Appendix I).

ARTICLE 1 - Incorporation; Short Title; Power

Section 1-1 Incorporation.

The Inhabitants of the municipality of Methuen, within the corporate limits established by law, shall continue to be a body corporate and politic under the name "City of Methuen".

Section 1-2 Short Title.

This instrument shall be known, and may be cited as the Methuen Home Rule Charter.

Section 1-3 Form of Government.

The administration of the fiscal, prudential, and municipal affairs of the City, with the government thereof, shall be vested in an executive branch, to consist of the Mayor, and a legislative branch, to consist of the City Council. The executive branch shall never exercise any legislative power, and the legislative branch shall never exercise any executive powers. Except as may otherwise be specifically authorized by the Charter, no member of the City Council, nor any committee thereof, shall take any part in the conduct of the administrative business of the City.

Section 1-4 Powers of the Municipality.

Subject only to express limitations on the exercise of any power or function by a municipality in the Constitution or the statutes of the Commonwealth, it is the intent and the purpose of the voters in Methuen, through the adoption of the Charter, to secure for the City all powers it is possible to secure under the Constitution and statutes of the Commonwealth, as fully and as completely as though each such power was specifically and individually enumerated herein.

Methuen will constitutionally have a city form of government and the General Laws that apply only to cities, or treat cities differently than towns, will automatically apply to Methuen. For example, Methuen will conform to the debt limit, bond and notes issuances, etc. of Chapter 44, the Municipal Finance Act, as it applies to cities.

Section 1-5 Construction.

The powers of the municipality under the Charter are to be construed liberally in favor of the City, and the specific mention of particular powers is not intended to limit, in any way, the general powers of the municipality as stated in Section 1-4.

Section 1-6 Intergovernmental Relations.

Subject only to express limitations in the construction of statutes of the Commonwealth, the City may exercise any of its powers or perform any of its functions, and may participate in the financing thereof, jointly or in cooperation, by contract or otherwise, with the Commonwealth, or any political subdivision or agency thereof, or the United States government or any agency thereof.

ARTICLE 2 - Legislative Branch

Section 2-1 Composition; Eligibility; Election and Term.

(a) Composition – There shall be a City Council consisting of nine members which shall exercise the legislative powers of the City. Six Councillors shall be nominated and elected from the voters by districts, two Councillors to be elected from each of the three districts of the City. Three Councillors shall be nominated and elected at large. Precincts 1, 2, 6 and 10, to be known as the Central District; Precincts 3, 7, 9 and 12, to be known as the East District; and Precincts 4, 5, 8 and 11, to be known as the West District. (Increase in number of precincts from 9 to 12 approved by Legislature, June 10th, 1986, Chapter 88 of the Acts and Resolves of 1986). The City Council shall be the judge of the election and qualification of its members.

(b) Eligibility – Only voters who at all times during their term of office shall be and remain residents of the City shall be eligible to hold the office of Councillor. A member of the City Council shall, notwithstanding his removal from one district to another, continue to serve and to perform his official duties during his term of office.

(c) Election and Term – The term of office of all members of the City Council shall be for two years, beginning on the first secular day in January after their election and until their successors are qualified. No person shall hold office of City Councillor for more than three consecutive terms. (Consecutive term limits approved by the Legislature, September 24th, 1999, Chapter 82 of the Acts and Resolves of 1999 and adopted by the Voters November 2nd, 1999. This Act eliminated lifetime term limits.)

Section 2-2 Organization.

After the Councillors elect have been sworn, the City Council shall be called together by the oldest member elected who shall preside. The City Council shall then elect, from among its members, a Chairman and Vice Chairman to serve at the pleasure of the City Council. The Chairman shall preside at all meetings of the City Council and perform such other functions as may be assigned by the Charter, by ordinance, or by vote of the City Council. The Vice Chairman shall act as Chairman of the Council

during the absence or disability of the Chairman. (Elimination of appointed Councillor on School Committee approved by voters November 3rd, 1981; see Resolution #758).

Section 2-3 Compensation; Expenses.

The City Council shall, by ordinance, establish an annual salary and expense allowance for its members.

No ordinance increasing such salary or expense allowance shall be effective, however, unless it shall have been adopted by a two-thirds vote of the full Council during the first eighteen months of the term for which Councillors are elected and the new salary and expense schedule is to be effective upon the commencement of the terms of office of the next City Council to be elected.

Section 2-4 General Powers and Duties.

Except as otherwise provided by law or by the Charter, all powers of the City shall be vested in the City Council which shall provide for their exercise and for the performance of all duties and obligations imposed on the City by law.

Section 2-5 Prohibitions.

No Councillor shall, while a member of the City Council, hold any other office or position the salary or compensation for which is payable out of the City treasury. No former Councillor shall hold any compensated appointive City office or City employment until one year after the expiration of his service on the City Council. This provision shall not prevent a City officer or employee who has taken a leave of absence from such duties in order to serve as a member of the City Council from returning to such office or employment following service as a member of the City Council.

Section 2-6 Filling of Vacancies.

If a vacancy occurs in the office of Councillor-at-Large or in the office of District Councillor, whether by failure to elect or otherwise, the remaining Councillors shall, within twenty-one days following the date such vacancy is declared to exist, act to fill the said vacancy. The Council shall elect, as acting Councillor whichever of the defeated candidates for the seat in which the vacancy is declared to exist, that person who received the highest number of votes at the last regular City election immediately preceding the date the vacancy is declared to exist, and who received at least twenty (20) percent of the total votes cast for the office at such election, and who remains eligible and willing to serve.

There being no such person, the Council shall choose from among the voters entitled to vote for such Councillor, an acting Councillor to serve for the balance of the unexpired term. If such choice is not made as hereinbefore provided within the said twenty-one days, the choice shall be made by the Councillor senior in length of service, or if there be more than one such, by the Councillor senior both in age and in terms of service. Any person so chosen shall be sworn and commence to serve forthwith. No vacancy shall be filled, in the manner hereinbefore provided, if a regular City election is to be held within one hundred twenty days following the date the vacancy is declared to exist.

Section 2-7 Exercise of Powers; Quorum; Rules of Procedure.

(a) Exercise of Powers - Except as otherwise prohibited by law or the Charter, the legislative powers of the City Council may be exercised in a manner determined by it.

(b) Quorum - A majority of the full City Council shall constitute a quorum. The affirmative vote of a majority of the full City Council shall be necessary to adopt any appropriation order. Except as otherwise provided by law or the Charter, any other motion or measure may be adopted by a majority vote of those present.

(c) Rules of Procedure - The City Council shall, from time to time, establish rules for its proceedings. Regular meetings of the City Council shall be held at a time and place fixed by ordinance but which shall be not less frequent than once monthly. Special meetings of the City Council may be held on the call of the Chairman of the City Council, or on the call of any three or more members, by written notice delivered to the place of residence or business of each member at least forty-eight hours in advance of the time set. Except as otherwise authorized by General Laws, all sessions of the City Council shall be open to the public and press. Every matter coming before the City Council for action shall be put to a vote, the result of which shall be duly recorded. A full, accurate, and up-to-date record of the proceedings of the City Council shall be kept and shall be open to inspection by the public.

Section 2-8 Council Staff.

(a) City Accountant - The City Council shall, on or before January fifteenth in odd numbered years, elect, by ballot or otherwise, a City Accountant to hold office for a term of two years and until his/her successor is qualified. (Odd numbered year appointment by amendment approved by the Legislature June 28th, 1996 as Chapter 145 of the Acts and Resolves of 1996. Amendment submitted by City Council Order #3738, approved February 5th, 1996.)

The City Accountant shall keep and have charge of the accounts of the City. He shall regularly audit the books and accounts of all City agencies, and he shall have such powers

The Clerk of the Council shall give notice of all meetings of the City Council to its members and to the public, keep a record of its proceedings and perform such duties as may be assigned by the Charter, by ordinance, or by other vote of the City Council. (Odd numbered year appointment by amendment approved by the Legislature June 28th, 1996 as Chapter 145 of the Acts and Resolves of 1996. Amendment submitted by City Council Order #3738, approved February 5th, 1996.)

(a) In General - No measure shall be passed finally on the date on which it is introduced, except in cases of special emergency involving the health or safety of the people or their property. Except as otherwise provided by the Charter, every adopted measure shall become effective at the expiration of thirty days after adoption or at any later date specified therein. No ordinance shall be amended or repealed except by another ordinance adopted in accordance with the Charter, or as provided in the initiative and referendum procedures.

Any emergency measure may be passed with or without amendment or rejected at the meeting at which it is introduced. After its adoption, an emergency measure shall be published as prescribed for other adopted measures. It shall become effective upon adoption or at such later time as it may specify.

(c) Charter Objection – On the first occasion that the question on adoption of a measure is put to the City Council, if a single member objects to the taking of the vote, the vote shall be postponed until the next meeting of the City Council, whether regular or special. If two or more other members shall join the member in objection, such postponement shall be until the next regular meeting; but for an emergency measure, at least four members in all must object. This procedure shall not be used more than once for any matter bearing a single docket number notwithstanding any amendment to the original matter.

Section 2-10 Delegation of Powers.

The City Council may delegate to one or more City agencies, the powers vested in the City Council by the laws of the Commonwealth to grant and issue licenses and permits, and may regulate the granting and issuing of licenses and permits by any such City agency, and may, in its discretion, rescind any such delegation without prejudice to any prior action which has been taken.

Section 2-11 Inquiries and Investigations.

The City Council may require any City officer or member of a board or commission to appear before it, and give such information as it may require in relation to his office, its function, and performance. The City Council shall give at least forty-eight hours written notice of the general scope of the inquiry which is to be made to any person it shall require to appear before it under this section.

In amending the budget, it may delete or decrease any programs or amounts except expenditures required by law or for debt service, but except on the recommendation of the Mayor, it shall not increase any item in or the total of the proposed budget.

If the City Council fails to take action with respect to any item in the budget within forty-five days after receipt of the budget, such amount shall, without any action by the City Council, become a part of the appropriations for the year, and be available for the purposes specified.

Section 5-4 Provision for Outside Audit.

At least once in every three years an outside audit of the books and accounts shall be made. In the event that the Commonwealth shall fail in any such period to provide for an audit to be conducted, within ninety days following the date a written request for them to do so is made by the City Council, the City Council shall provide for such an audit to be made by a certified public accountant, or firm of such accountants, who have no personal interests, direct or indirect, in the fiscal affairs of the City government or of any of its affairs or employees.

Section 5-5 Annual Audit of Department Heads.

There will be a financial audit done by a private public accountant or firm of all department heads who are responsible for any negotiating or any individual who awards any contracts or investments in the interest of the City.

This audit shall be done annually and if this audit finds that there is no wrongdoing as far as the residents of the City are concerned, a report stating such shall be placed

Such reorganization plan shall be accompanied by an explanatory message when submitted.

(b) Every such reorganization plan shall, upon receipt by the Clerk of the Council, be referred to an appropriate committee of the City Council which shall, not more than thirty days later, hold a public hearing on the matter and shall, within ten days following such hearing, report either that it approves or that it disapproves of the plan. A reorganization plan shall become effective ninety days after the date it is received by the City Council, unless the City Council has, prior to that date, voted to disapprove the reorganization plan, or, unless a later effective date is specified in the plan. A reorganization plan presented by the Mayor to the City Council under this section may not be amended by it, but shall either be approved or rejected as submitted and shall not be subject to the objection as provided in Section 2-9(c).

Section 6-3 Publication of Reorganization Plan.

An up-to-date record of any reorganization plan under this article shall be kept on file in the office of the City Clerk and copies of all such plans shall be included as an appendix in any publication of the ordinances of the City.

ARTICLE 7 - Nominations and Elections

Section 7-1 City Elections; General and Preliminary.

The regular City election shall be held on the first Tuesday following the first Monday in November of each odd- numbered year.

On the fourth Tuesday preceding every regular City election, there shall be held a preliminary election for the purpose of nominating candidates.

Section 7-2 Preliminary Elections.

(a) Signature Requirements - The number of signatures of voters required to place the name of a candidate on the official ballot to be used at a preliminary election shall be as follows: For an office which is to be filled by vote of the whole City, not less than one hundred and fifty signatures, not less than fifty from each of the three districts. For an office which is elected by the voters in a district, not less than fifty signatures from said district.

(b) Ballot Position - The order in which names of candidates appear on the ballot for each office shall be determined by a drawing by lot conducted by the City Clerk in the presence of such candidates or their representatives as may choose to attend such drawings.

(c) Determination of Candidates for Election – The two persons receiving at a preliminary election the highest number of votes for nomination for an office shall be the sole candidates for that office whose names may be printed on the official ballot to be used at the regular election at which such office is to be filled, and no acceptance of a nomination at a preliminary election shall be necessary to its validity.

If two or more persons are to be elected to the same office at such regular election, the several persons in number equal to twice the number so to be elected receiving

at such preliminary election the highest number of votes for nomination for that office shall be the sole candidates for that office whose names may be printed on the official ballot.

If the preliminary election results in a tie vote among candidates for nomination receiving the lowest number of votes, which but for said tie vote would entitle a person receiving the same to have his name printed upon the official ballot for the election, all candidates participating in said tie vote shall have their names printed upon the official ballot, although in consequence, there be printed thereon candidates to a number exceeding twice the number to be elected.

(d) Nominations of Candidates; Conditions Making Preliminary Election Unnecessary - If, at the expiration of the time for filing petitions of candidates to be voted for at any preliminary election, not more than twice as many such petitions have been filed with the City Clerk for an office as are to be elected to such office, the candidates whose petitions have thus been filed shall be deemed to have been nominated to said office and their names shall be voted on for such office at the succeeding regular election, and the City Clerk shall not print said names upon the ballot to be used at said preliminary election and no other nomination to said office shall be made. If, in consequence, it shall appear that no names are to be printed upon the official ballot to be used at any preliminary election in any district or districts of the City, no preliminary election shall be held in any such district or districts.

Section 7-3 Regular Election.

(a) Information to Voters - If the candidate in a regular City election is an incumbent of the office to which he seeks election, against his name shall appear the phrase "candidate for re-election".

(b) Ballot Position - The order in which names of candidates appear on the ballot for each office in a regular City election shall be determined by a drawing by lot conducted by the City Clerk in the presence of such candidates or their representatives as may choose to attend.

Section 7-4 Precincts and Districts.

The territory of Methuen shall be divided into twelve precincts, so established as to consist of as nearly equal a number of inhabitants as it is possible in compact and contiguous territory; bounded insofar as possible by the center line of known streets or ways or by other well defined limits. The twelve precincts shall be separated into three districts. The Central District shall include Precincts 1, 2, 6 and 10; the East District shall include Precincts 3, 7, 9 and 12; and the West District shall include Precincts 4, 5, 8 and 11. (Increase in precincts from 9 to 12 approved by the Legislature June 10th, 1986 - Chapter 88 of the Acts and Resolves of 1986; see Resolution #1473).

Section 7-5 Application of State Laws.

Except as expressly provided in the Charter and authorized by statute, all City elections shall be governed by the laws of the Commonwealth relating to the right to vote, the registration of voters, the nomination of candidates, the conduct of preliminary and regular elections, the submission of Charter amendments and other propositions, the counting of votes and the declaration of results.

ARTICLE 8 - Free petition; Initiative; Referendum; Recall

Section 8-1 Free Petition.

a) Individual Petitions, Action Discretionary - The City Council and the School Committee shall receive all petitions which are addressed to them and signed by a voter and may, in their discretion, take such action in regard to such petitions as they deem necessary and appropriate.

b) Group Petitions; Action Required - The City Council (or the School Committee), as the case may be, shall hold a public hearing and act by taking a vote on the merits of every petition which is addressed to it and which is signed by at least one hundred fifty voters. The hearing shall be held by the City Council or the School Committee, or, in either case, by a committee or sub-committee thereof and the action by the City Council or School Committee shall be taken not later than three months after the petition is filed with the City Clerk. Hearings on two or more petitions filed under this section may be held at the same time and place. The City Clerk shall mail notice of the hearing to the ten petitioners whose names first appear on each petition at least seven days before the hearing. Notice by publication at least seven days prior to all such hearings shall also be made, and shall be at public expense. No hearing shall be heard upon any one subject matter more than once in any given twelve month period.

Section 8-2 Citizen Initiative Measures.

a) Commencement of Proceedings – Initiative procedures shall be started by the filing of an initiative petition with the City Clerk. The petition shall be addressed to the City Council or the School Committee, shall contain a request for passage of a particular measure set forth in the petition and shall be signed by not less than ten per cent of the total number of voters.

Signatures to initiative petitions need not be all on one paper. All such papers pertaining to any one measure shall be fastened together and shall be filed in the office of the City Clerk as one instrument, with the endorsement thereon of the names and addresses of the persons designated as filing the same. With each signature to the petitions, shall be stated the place of residence of the signer, giving the street and number, if any.

Within five days after the filing of said petition the registrars of voters shall ascertain by what number of voters the petition is signed, and what percentage that number is of the total number of voters and shall attach thereto their certificate showing the result of such examination.

The City Clerk shall forthwith transmit the said certificate with the said petition to the City Council or to the School Committee, according as the petition is addressed and at the same time shall send a copy of said certificate to the persons designated on the petition as filing the same.

When such certificate has been so transmitted, said petition shall be deemed to be valid unless written objections are made with regard to the signatures thereon by a voter within forty-eight hours after such certification by filing such objections with the City Council or the School Committee, and a copy thereof with the registrars of voters. Any such objection shall be determined forthwith.

b) Referral to City Solicitor - If the City Clerk determines that a sufficient number of signers are voters, he shall transmit a copy of the petition to the City Solicitor.

Within fifteen days after his receipt of the petition the City Solicitor shall advise the City Clerk in writing whether the measure may be proposed by initiative procedures and whether it may lawfully be passed by the City Council or the School Committee. If the opinion of the Solicitor is that the measure may not lawfully be passed, he shall state his reason or reasons therefore in his reply. The City Clerk shall forthwith furnish a copy of the City Solicitor's opinion to the person designated on the petition as filing the same.

c) Initiative Petition; Requirements for Passage and Submission to Electorate - If any initiative petition is signed by voters equal in number to at least ten per cent of the total number of voters, and, in the opinion of the City Solicitor, such measure may lawfully be passed by the City Council or the School Committee, the City Council or the School Committee, within twenty days after the date of the certificate of the registrars to that effect: (1) shall pass said measure without alteration, subject to the referendum vote provided by this Charter; or (2) the City Council shall call a special election to be held on a date fixed by it not less than thirty nor more than forty-five days after the date of the certificate hereinbefore mentioned, and shall submit the proposed measure without alteration to a vote of the voters at that election; provided, that if any City election is otherwise to occur within one hundred and twenty days after the date of said certificate, the City Council may, at its discretion, omit the calling of a special election and submit the proposed measure to the voters at such approaching election.

The ballots used when voting upon a proposed measure under this section shall state the nature of the measure in terms sufficient to show the substance thereof.

Section 8-3 Citizen Referendum Procedures.

Referendum Petition; Effect on Final Passage – If within twenty days after the final passage of any measure, except a revenue loan order, by the City Council or by the School Committee, a petition signed by voters equal in number to at least ten per cent of the total number of voters, and addressed to the City Council or to the School Committee, as the case may

be, protesting against such measure or any part thereof taking effect, is filed with the City Clerk, the same shall thereupon and thereby be suspended from taking effect; and the City Council or the School Committee, as the case may be, shall immediately reconsider such measure or part thereof; and if such measure or part thereof is not entirely rescinded, the City Council shall submit the same, by the method herein provided, to a vote of the voters either at the next regular City election, or at a special election which may, in its discretion, be called for the purpose and such measure or part thereof shall forthwith become null and void unless a majority of the voters voting on the same at such election vote in favor thereof.

The petition described in this section shall be termed a referendum petition and section 8-2 (a) shall apply to the procedure in respect thereto, except that the words "measure or part thereof protested against" shall for this purpose be understood to replace "measure" in said section whenever it may occur, and "referendum" shall be understood to replace the word "initiative" in said section.

In addition to the requirements for filing as mentioned above, the following shall apply: referendum petitions shall be on a form as prepared by the City Clerk and such petition forms may not be issued on any referendum matter until the same has been finally passed in accordance with Article 2, Section 2-9(a) of the Methuen Home Rule Charter. Failure to comply with the above procedure shall invalidate any petition otherwise proper in form and substance. (Approved by voters November 5, 1985; see resolution #1359).

Section 8-4 Submission of Proposed Measure to Voters.

The City Council may, of its own motion, and shall upon request of the School Committee if a measure originates with that committee and pertains to the affairs under its administration, submit to a vote of the voters for adoption or rejection at a general or special City election any proposed measure, or a proposition for the repeal or amendment of any measure, in the same manner and with the same force and effect as are hereby provided for submission on petition.

Section 8-5 Measures with Conflicting Provisions.

If two or more proposed measures passed at the same election contain conflicting provisions, only the one receiving the greater number of affirmative votes shall take effect.

Section 8-6 Recall Petitions.

(a) Who Can Be Recalled - The holder of any elective City office may be recalled therefrom by the voters as herein provided.

(b) Recall Petition - Any one hundred fifty voters may file with the City Clerk an affidavit containing the name of the officer sought to be recalled and a statement of the grounds for the recall. The City Clerk shall thereupon deliver to said voters making the affidavit copies of petition blanks demanding such recall printed forms of which he shall keep available. The

blanks shall be issued by the City Clerk with his signature and the official seal attached hereto. They shall be dated, shall be addressed to the City Council and shall contain the names of all persons to whom they are issued, the name of the person whose recall is sought, the grounds of recall as stated in the affidavit and shall demand the election of a successor in the said office. A copy of the petition shall be entered in a record book to be kept in the office of the City Clerk. The recall petition shall be returned and filed with the City Clerk within sixty days after the filing of the affidavit, and shall have been signed by at least fifty per cent of the number of voters of the City who have voted in the last preceding local election, or in the case of a district councilman, of the district, who shall add to their signatures the street and number, if any, of their residences.

The City Clerk shall within twenty-four hours of receipt submit the petition to the registrars of voters and the registrars shall forthwith certify thereon the number of signatures which are names of voters.

(c) City Council's Action on Receiving Petition - If the petition shall be found and certified by the City Clerk to be sufficient, he shall submit the same with his certificate to the City Council without delay, and the City Council shall forthwith give written notice of the receipt of the certificate to the officer sought to be recalled and shall, if the officer does not resign within five days thereafter, order an election to be held on a date fixed by them not less than forty-five nor more than sixty days after the date of the City Clerk's certificate that a sufficient petition is filed; provided, however, that if any other City election is to occur within sixty days after the date of the certificate, the city council shall postpone the holding of the recall election to the date of such other election. If a vacancy occurs in said office after a recall election has been ordered, the election shall nevertheless proceed as provided in this section.

(d) Nomination of Candidates - Any officer sought to be removed may be a candidate to succeed himself, and unless he requests otherwise in writing, the City Clerk shall place his name on the ballot without nomination. The nomination of other candidates, the publication of the warrant for the removal election, and the conduct of the same, shall all be in accordance with the provisions of law relating to elections, unless otherwise provided in this section.

(e) Incumbent Holds Office Until Election – The incumbent shall continue to perform the duties of his office until the recall election. If then re-elected, he shall continue in office for the remainder of his unexpired term, subject to recall as before, except as provided in this section. If not re-elected in the recall election, he shall be deemed removed upon the qualification of his successor, who shall hold office during the unexpired term. If the successor fails to qualify within five days after receiving notification of his election, the incumbent shall thereupon be deemed removed and the office vacant.

(f) Propositions on Ballot - Ballots used in a recall election shall submit the following propositions in the order indicated:

For the recall of (name of officer)

Against the recall of (name of officer)

Immediately at the right of each proposition there shall be a square in which the voter, by making a cross mark (X), may vote for either of the said propositions. Under the proposition shall appear the word "Candidates", the directions to voters required by Section 42 of Chapter 54 of the General Laws, and beneath this, names of candidates nominated as hereinbefore provided. If a majority of the votes cast upon the question of recall is in the affirmative, the candidate receiving the highest number of votes shall be declared elected. If a majority of votes on the question is in the negative, the ballots for candidates need not be counted.

(g) Re-appointment of Person Recalled - No person who has been recalled from an office, or who has resigned from office while recall proceedings were pending against him, shall be appointed to any city office within two years after such recall or such resignation.

APP. V – 2

An Act Providing for Election of a Mayor in the City Known as the Town of Methuen and Establishment of Limitation of Terms of Town Councillors

This initiative petition called upon the citizens to determine whether or not they should forward to the Massachusetts legislature an Act Providing for the Election of a Mayor in the City Known as the Town of Methuen and Establishment of Limitation of Terms of City Councillors.

The Methuen City Council, on October 5th, 1992, adopted an Order Calling for a Binding Question asking the inhabitants if they should petition the legislature to enact the aforesaid Act. On November 3rd, 1992, the inhabitants approved said question by a vote of 13,264 "yes" and 5,900 "no" and said Act was forwarded to the legislature.

Said Act further called for a re-submittal to the citizens for a final vote on determining whether or not to establish the position of Mayor and, by Order #3418 adopted by the City Council on January 19th, 1993, a special election was called for said purpose. Said election was held on May 4th, 1993 and by vote of 4,172 "yes" and 2,109 "no", the citizens approved said Act.

This Act eliminated the position of City Manager and substituted an elected mayoral form of government. Said Mayor would serve for two-year terms with a maximum of three terms served. The powers of the Mayor are similar to that of a City Manager excepting that the Mayor would have the authority to veto ordinances or resolutions proposed by the City Council. In addition to the Mayor, a provision was created limiting the terms of City Councillors to no more than three consecutive or non-consecutive two year terms.
